Amanat Pengerusi

DATO' MENTERI BESAR SELANGOR MERANGKAP PENGERUSI YAYASAN SELANGOR

Alhamdulillah, setinggi-tinggi kesyukuran dipanjatkan ke hadrat Allah SWT atas segala limpah kurnia dan rahmat-Nya yang mengurniakan kepada kita sebuah negeri yang bertuah, Negeri Selangor Darul Ehsan, yang terus kekal aman, makmur dan berkebajikan. Nikmat keamanan, kestabilan serta kemakmuran yang kita kecapi hari ini adalah hasil daripada usaha berterusan pelbagai pihak berganding bahu membangunkan negeri ini demi kesejahteraan rakyat.

Sejak sekian lama, Selangor dikenali sebagai antara peneraju utama pembangunan pendidikan di Malaysia. Kemajuan pesat negeri ini bukan sahaja diukur melalui kekuatan ekonomi dan pembangunan fizikal, tetapi juga melalui komitmen berterusan dalam membangunkan modal insan yang berkualiti, berilmu dan berdaya saing.

Dalam konteks ini, Yayasan Selangor memainkan peranan penting sebagai antara institusi pendidikan negeri yang paling signifikan dalam sejarah pembangunan pendidikan Selangor. Sejak penubuhannya, ribuan anak Selangor menerima manfaat melalui pelbagai inisiatif pendidikan meliputi program asrama, biasiswa, pinjaman pelajaran serta program kecemerlangan akademik. Program-program seperti Rancangan Khas Pendidikan, penajaan pelajar cemerlang serta pembangunan bakat dan sahsiah membuka peluang luas kepada generasi muda untuk mencapai potensi terbaik mereka.

Selain itu, Kerajaan Negeri turut memperkukuh ekosistem pendidikan melalui pelbagai program sokongan akademik, termasuk penganjuran seminar kecemerlangan peperiksaan yang melibatkan ribuan pelajar bagi meningkatkan prestasi dalam peperiksaan utama negara. Usaha ini bukan sahaja membantu pelajar mencapai keputusan lebih baik, malah membina generasi anak Selangor yang berilmu, berkeyakinan serta bersedia menghadapi cabaran masa hadapan. Pada masa sama, komitmen untuk memastikan akses pendidikan yang inklusif terus diperkukuh melalui pelbagai bantuan kewangan dan penajaan kepada pelajar daripada keluarga berpendapatan rendah, termasuk peluang melanjutkan pengajian di institusi pendidikan berprestij.

Kerajaan Negeri juga memperkukuh pendidikan tinggi melalui institusi miliknya seperti Universiti Selangor dan Universiti Islam Antarabangsa Selangor yang menyediakan peluang pendidikan berkualiti dalam pelbagai bidang profesional, teknikal serta pengajian Islam. Kedua-dua institusi ini memainkan peranan penting dalam melahirkan graduan kompeten dan memenuhi keperluan pembangunan negeri serta industri negara.

Di peringkat sekolah pula, pelbagai program sokongan akademik terus dilaksanakan, termasuk Program Tuisyen Rakyat Selangor yang memberikan bimbingan

tambahan kepada pelajar daripada keluarga berpendapatan rendah agar mereka mampu meningkatkan prestasi dalam peperiksaan utama.

Selain itu, bantuan kewangan pendidikan seperti Hadiah Pengajian IPT Selangor turut diperkenalkan bagi meringankan beban keluarga serta menggalakkan lebih ramai anak Selangor melanjutkan pengajian ke institusi pengajian tinggi.

Keseluruhannya, gabungan pelbagai inisiatif ini mencerminkan komitmen berterusan Kerajaan Negeri untuk menjadikan Selangor bukan sahaja sebagai negeri maju dari segi ekonomi, tetapi juga sebagai negeri yang unggul dalam pembangunan pendidikan dan modal insan, demi melahirkan generasi anak Selangor berilmu, berdaya saing dan mampu memimpin masa depan negara.

Komitmen ini turut diterjemahkan melalui pembentangan Belanjawan Selangor 2025 yang meletakkan pendidikan sebagai antara keutamaan strategik dalam agenda pembangunan negeri. Melalui belanjawan tersebut, sektor pendidikan menerima peruntukan keseluruhan sebanyak RM79.95 juta bagi memperkukuh pembangunan modal insan serta menyokong kemajuan institusi dan ekosistem pendidikan di negeri ini.

Peruntukan ini merangkumi pelbagai inisiatif yang memberi manfaat kepada pelajar, institusi pendidikan serta komuniti sekolah, termasuk bantuan pendidikan, pembangunan prasarana sekolah, program peningkatan kecemerlangan akademik serta pengukuhan institusi pendidikan negeri seperti Yayasan Selangor. Usaha ini mencerminkan komitmen berterusan Kerajaan Negeri dalam memastikan akses pendidikan yang lebih luas, berkualiti dan inklusif kepada rakyat Selangor.

Pendekatan ini juga selari dengan aspirasi jangka panjang untuk memperkukuh kedudukan Selangor sebagai hab pendidikan nasional, dengan memastikan pelaburan berterusan dalam pembangunan bakat, pengetahuan dan kemahiran generasi muda yang bakal memacu kemajuan negeri dan negara pada masa hadapan.

Warisan Keprihatinan dan Kecemerlangan

Sempena sambutan ulang tahun ke-55 penubuhan Yayasan Selangor pada 5 November 2025, kita menelusuri kembali perjalanan panjang sebuah institusi yang telah menjadi tonggak penting dalam pembangunan pendidikan negeri Selangor. Sejak penubuhannya lebih lima dekad lalu, Yayasan Selangor berkembang daripada sebuah inisiatif pendidikan negeri kepada sebuah institusi pemangkin mobiliti sosial yang memberi impak besar kepada pembangunan modal insan.

Sepanjang tempoh ini, Yayasan Selangor telah berdiri teguh sebagai institusi yang menjunjung amanah rakyat membuka ruang peluang pendidikan, memperkasa potensi anak bangsa, serta membina masa depan generasi Selangor tanpa mengira latar belakang sosioekonomi. Legasi ini terbina atas keyakinan bahawa pendidikan adalah hak asas setiap anak dan merupakan kunci utama kepada perubahan kehidupan lebih baik.
Sejak penubuhannya, Yayasan Selangor memberi manfaat kepada puluhan ribu pelajar melalui pelbagai program pendidikan termasuk bantuan kewangan, kemudahan asrama, biasiswa, pinjaman pelajaran serta program pembangunan akademik dan sahsiah. Program-program seperti Rancangan Khas Pendidikan, penajaan pelajar cemerlang serta program intervensi akademik menjadi platform penting dalam melahirkan generasi pelajar yang lebih berdaya saing.

Lebih daripada sekadar bantuan pendidikan, Yayasan Selangor turut berperanan membentuk karakter dan jati diri pelajar melalui pendekatan pembangunan holistik yang menekankan keseimbangan antara kecemerlangan akademik, sahsiah dan nilai kepimpinan. Hasilnya, ramai alumni Yayasan Selangor kini telah berjaya dalam pelbagai bidang profesional, sektor awam dan swasta, serta menyumbang kembali kepada pembangunan negara.

Kepercayaan bahawa setiap anak berhak diberikan peluang yang adil untuk berjaya menjadi asas kepada setiap dasar dan pelaksanaan program Yayasan Selangor. Prinsip ini terus menjadi teras utama dalam memastikan akses pendidikan yang inklusif, khususnya kepada golongan B40 dan keluarga berpendapatan rendah.

Pendekatan ini memperlihatkan komitmen berterusan Yayasan Selangor dalam memastikan pendidikan tidak menjadi hak eksklusif, tetapi sebagai hak bersama yang membuka laluan kepada mobiliti sosial dan kesejahteraan generasi masa hadapan.

Moto Yayasan Selangor, "Pendidikan Unggul: Mengupaya Insan, Merealisasi Wawasan", bukan sekadar slogan, tetapi merupakan manifestasi komitmen jangka panjang organisasi ini dalam membina generasi berilmu, berkemahiran dan berakhlak.

Ia mencerminkan aspirasi untuk melahirkan insan yang bukan sahaja cemerlang dari segi akademik, tetapi juga memiliki nilai integriti, daya saing dan keupayaan untuk memimpin masa depan negeri dan negara.

Pendidikan Berwawasan: Teras Pembinaan Masa Hadapan

Kerajaan Negeri Selangor meletakkan pendidikan sebagai tonggak utama pembangunan negeri serta asas kepada pembinaan masyarakat progresif. Keyakinan ini berteraskan kefahaman bahawa pendidikan merupakan kunci kepada mobiliti sosial, kestabilan ekonomi dan kemakmuran jangka panjang yang mampan.

Melalui pelbagai inisiatif strategik serta dasar yang inklusif, Selangor terus diperkasakan sebagai pusat kecemerlangan pendidikan serantau, dengan sokongan institusi pendidikan negeri seperti Universiti Selangor dan Universiti Islam Antarabangsa Selangor yang memainkan peranan penting dalam melahirkan graduan yang berilmu, berkemahiran dan berdaya saing.

Fokus utama agenda pendidikan negeri adalah memastikan golongan berpendapatan rendah, khususnya keluarga B40, tidak tercicir daripada arus pendidikan berkualiti. Dalam hal ini, pelbagai bantuan dan sokongan disalurkan melalui program seperti Program BUDI yang memberi peluang kepada pelajar cemerlang daripada keluarga kurang berkemampuan untuk meneruskan pengajian serta mengembangkan potensi mereka secara optimum.

Pada tahun 2025 sahaja, Yayasan Selangor menyalurkan lebih RM2 juta kepada kira-kira 4,000 pelajar, sebagai satu bentuk pelaburan strategik negeri dalam membina modal insan yang bakal menjadi peneraju masa depan Selangor dan negara.

Selaras dengan pendekatan pembangunan yang holistik, Kerajaan Negeri percaya bahawa pembangunan insan tidak hanya tertumpu kepada pencapaian akademik semata-mata, tetapi turut merangkumi pembentukan sahsiah, nilai dan jati diri yang kukuh. Justeru, Yayasan Selangor sentiasa menekankan keseimbangan antara kecemerlangan ilmu, disiplin diri dan kekuatan rohani dalam setiap program yang dilaksanakan.

Kemudahan asrama Yayasan Selangor di Klang dan Sabak Bernam bukan sekadar berfungsi sebagai tempat penginapan pelajar, tetapi turut menjadi wadah pembentukan karakter dan pembangunan sahsiah secara holistik. Pelbagai program pembangunan diri seperti Khatam al-Quran, Iftar Madani, Solat Hajat dan Majlis Restu Ilmu dilaksanakan bagi menyemai nilai kesyukuran, disiplin, tanggungjawab serta ukhuwah dalam kalangan pelajar.

Melalui pendekatan ini, pelajar bukan sahaja dipersiapkan dari sudut akademik, malah turut dibentuk dengan kekuatan dalaman, jati diri dan ketahanan emosi bagi menghadapi cabaran kehidupan serta persaingan masa hadapan dengan lebih yakin dan berdaya tahan.

PERANCANGAN STRATEGIK: MEMPERKUKUH KELESTARIAN YAYASAN SELANGOR

BAGI MEMASTIKAN KESINAMBUNGAN MISI YAYASAN SELANGOR DALAM JANGKA PANJANG, TAHUN 2025 MENYAKSIKAN SATU ANJAKAN STRATEGIK YANG PENTING KE ARAH PEMERKASAAN KEWANGAN SERTA PENGURUSAN ASET SECARA LEBIH MAMPAN DAN

BERDAYA SAING. PENDEKATAN INI MERUPAKAN SEBAHAGIAN DARIPADA USAHA TRANSFORMASI ORGANISASI BAGI MEMASTIKAN YAYASAN SELANGOR KEKAL RELEVAN, LESTARI DAN MAMPU TERUS MELAKSANAKAN AGENDA PENDIDIKAN NEGERI SECARA BERTERUSAN.

Fokus utama pendekatan ini adalah kepada pelaksanaan Inisiatif Pemerkasaan Aset (Asset Enhancement Initiatives – AEI) yang bertujuan menjana sumber pendapatan mampan bagi menyokong keperluan pembiayaan program pendidikan pada masa hadapan. Strategi ini penting bagi mengurangkan kebergantungan kepada sumber dana tradisional, di samping memperkukuh daya tahan kewangan organisasi.

Antara projek utama di bawah inisiatif ini ialah pembangunan semula bangunan 12 tingkat yang terletak di persimpangan Jalan Bukit Bintang dan Jalan Sultan Ismail kepada Sinma Redland Mall, yang mula beroperasi pada Disember 2025. Projek strategik ini bukan sahaja akan meningkatkan nilai aset Yayasan Selangor, malah dijangka menjadi sumber pendapatan jangka panjang yang stabil bagi menyokong agenda pendidikan negeri secara berterusan.

Di peringkat yang lebih luas, Yayasan Selangor turut memainkan peranan dalam pembangunan strategik di Pulau Carey melalui penglibatan dalam projek Edu-Tek Park serta Hab Sekuriti Makanan, bersama rakan strategik. Kerjasama ini mencerminkan pendekatan kolaboratif antara sektor awam dan swasta dalam memperkukuh pembangunan negeri secara menyeluruh.

Inisiatif di Pulau Carey ini bukan sahaja menyokong agenda keselamatan makanan negara, malah turut membuka ruang kepada pembangunan ekosistem pendidikan, latihan teknikal dan peluang pekerjaan berimpak tinggi kepada generasi muda. Ia selari dengan aspirasi Yayasan Selangor untuk melahirkan modal insan yang bukan sahaja berilmu, tetapi juga bersedia memenuhi keperluan industri masa hadapan.

Memperkasa Potensi Melalui Pendidikan dan Keprihatinan

Pada terasnya, Yayasan Selangor berpegang kepada keyakinan bahawa setiap anak mempunyai potensi unik yang perlu dibimbing, diasah dan diperkasakan dengan penuh kepercayaan, komitmen serta kasih sayang. Berasaskan falsafah ini, Yayasan Selangor terus melaksanakan pelbagai program pendidikan yang bersifat inklusif dan berimpak tinggi bagi memastikan tiada bakat tercicir daripada arus pembangunan negeri.

Melalui Program Rancangan Khas Pendidikan Yayasan Selangor (RKPYS), seramai 298 pelajar Tingkatan 1 telah ditempatkan di 27 buah sekolah terpilih bagi sesi 2025/2026. Pemilihan ini dibuat daripada ribuan permohonan seluruh negeri, mencerminkan proses saringan yang kompetitif dan berasaskan merit serta potensi. Pelajar yang terpilih diberikan peluang untuk berkembang dalam ekosistem pendidikan yang lebih kondusif, sistematik dan berkualiti tinggi, dengan sokongan berterusan dari segi akademik dan pembangunan sahsiah.

Selain itu, Program Bitara terus membuktikan keberkesanannya dalam melahirkan pelajar cemerlang apabila tiga orang pelajar telah menerima tajaan penuh untuk melanjutkan pengajian ke Kolej Yayasan Saad, Melaka, salah satu institusi pendidikan berprestij di negara ini. Kejayaan ini menjadi bukti jelas bahawa dengan intervensi pendidikan yang tepat, pelajar daripada latar belakang sederhana mampu mencapai kecemerlangan dan bersaing di peringkat tertinggi.

Selaras dengan prinsip keprihatinan sosial, Yayasan Selangor turut memainkan peranan aktif dalam membantu masyarakat ketika berdepan situasi mencabar. Ketika berlakunya tragedi kebakaran saluran gas di Putra Heights, bantuan segera telah disalurkan kepada pelajar dan keluarga yang terjejas melalui sumbangan tunai, baucar buku, peralatan pembelajaran serta bantuan tanggungjawab sosial korporat. Tindakan pantas ini mencerminkan komitmen Yayasan Selangor untuk sentiasa hadir bersama rakyat bukan sahaja dalam detik kejayaan, tetapi juga dalam saat kesusahan dan keperluan.

Secara keseluruhannya, inisiatif-inisiatif ini menzahirkan pendekatan Yayasan Selangor yang bukan sekadar memberi bantuan pendidikan, tetapi juga membina ekosistem sokongan menyeluruh yang berteraskan keprihatinan, peluang saksama dan pembangunan potensi insan secara holistik.

Membina Tenaga Mahir dan Profesional Masa Hadapan

Menyedari perubahan pesat dalam landskap pekerjaan global yang semakin dipacu oleh teknologi, digitalisasi dan keperluan industri bernilai tinggi, Yayasan Selangor terus memperluaskan peranannya dalam bidang pendidikan profesional, teknikal dan pembangunan kemahiran masa hadapan.

Pendekatan ini merupakan sebahagian daripada usaha strategik Yayasan Selangor untuk memastikan pembangunan modal insan negeri Selangor tidak hanya tertumpu kepada pendidikan akademik semata-mata, tetapi turut merangkumi pembinaan laluan kerjaya profesional yang lebih luas, kompetitif dan relevan dengan keperluan pasaran kerja semasa dan akan datang.

Dalam usaha ini, kerjasama strategik dengan INTEC Education College telah membuka peluang kepada pelajar untuk mengikuti program profesional seperti ACCA dan ICAEW, yang diiktiraf di peringkat antarabangsa. Inisiatif ini adalah selaras dengan keperluan pembangunan tenaga kerja berkemahiran tinggi di bawah kerangka pembangunan negara termasuk aspirasi Rancangan Malaysia Ke-13, khususnya dalam memperkukuh sektor kewangan, perakaunan dan tadbir urus profesional.

Pada masa sama, Yayasan Selangor turut memperkukuh peranan dalam bidang latihan kemahiran teknikal melalui kerjasama dengan Perbadanan Hal Ehwal Bekas Angkatan Tentera (PERHEBAT) sebagai usaha memperkukuh kebolehpasaran tenaga kerja serta meningkatkan mobiliti ekonomi kumpulan sasar.

Inisiatif ini bukan sahaja membuka peluang pekerjaan yang lebih luas, malah turut menyumbang kepada pembinaan keyakinan diri, kestabilan ekonomi dan masa depan yang lebih terjamin kepada golongan penerima manfaat. Ia mencerminkan pendekatan Yayasan Selangor yang bersifat inklusif, progresif dan berorientasikan impak sosial jangka panjang.

Selain itu, penglibatan Yayasan Selangor dalam program Skills2Sector anjuran HRD Corp memperkukuh lagi usaha penyelarasan antara latihan kemahiran dan keperluan industri semasa. Penyertaan ini memastikan setiap inisiatif yang dilaksanakan adalah relevan dengan kehendak pasaran kerja, sekali gus meningkatkan kebolehpasaran graduan dan pelatih.

Secara keseluruhannya, pendekatan ini memperkukuh aspirasi Selangor untuk terus muncul sebagai hab pembangunan modal insan negara, dengan ekosistem pendidikan dan latihan yang dinamik, responsif serta selari dengan keperluan ekonomi masa hadapan.

Penutup

Akhir kata, saya merakamkan setinggi-tinggi penghargaan kepada seluruh warga Yayasan Selangor, rakan strategik, warga pendidik serta semua pihak yang terus menyokong agenda pendidikan negeri. Kepada pelajar, manfaatkan setiap peluang yang disediakan dengan penuh kesungguhan. Kepada seluruh warga kerja Yayasan Selangor, teruskan khidmat bakti dengan penuh integriti dan keikhlasan. Bersama-sama, kita akan terus membina masa depan Selangor yang lebih gemilang melalui pendidikan yang berkualiti, inklusif dan berteraskan nilai kemanusiaan.

Dato' Menteri Besar Selangor
Pengerusi Yayasan Selangor

Perutusan

KETUA PEGAWAI EKSEKUTIF YAYASAN SELANGOR

Assalamualaikum Warahmatullahi Wabarakatuh dan Salam Sejahtera.

Alhamdulillah, setinggi-tinggi kesyukuran ke hadrat Allah SWT kerana dengan limpah kurnia-Nya, Yayasan Selangor terus melangkah maju dalam memperkukuh peranan sebagai institusi pemerkasaan pendidikan dan kebajikan rakyat Selangor. Tahun 2025 merupakan tahun yang amat bermakna buat Yayasan Selangor apabila genap 55 tahun penubuhannya, sekali gus menjadi titik penting dalam memperkukuh hala tuju masa depan organisasi ini.

Saya amat berbesar hati diberikan amanah sebagai Ketua Pegawai Eksekutif Yayasan Selangor bermula 3 Mac 2025. Berbekalkan pengalaman dalam sektor korporat dan hartanah, saya komited untuk memperkukuh Yayasan Selangor sebagai sebuah entiti mampan, berdaya saing serta berkeupayaan menjana sumber sendiri demi kelangsungan agenda pendidikan anak-anak Selangor. Segala usaha yang dilaksanakan pada tahun ini berpaksikan moto Yayasan Selangor, iaitu "Pendidikan Unggul: Mengupaya Insan, Merealisasi Wawasan."

Pemerkasaan Pendidikan dan Modal Insan

Sepanjang tahun 2025, Yayasan Selangor telah memperkukuh peranannya sebagai pemangkin kepada mobiliti sosial dan pendidikan, khususnya dalam kalangan komuniti B40. Kami percaya bahawa akses kepada pendidikan berkualiti tidak seharusnya ditentukan oleh latar belakang sosioekonomi, sebaliknya harus menjadi hak yang dapat dicapai oleh setiap anak Selangor yang berpotensi. Atas prinsip inilah, Yayasan Selangor telah menyalurkan bantuan biasiswa berjumlah lebih RM2 juta kepada seramai 4,000 orang pelajar. Inisiatif ini bukan sekadar berbentuk sokongan kewangan, tetapi satu manifestasi komitmen berterusan kerajaan negeri dalam memastikan kelangsungan pendidikan anak-anak yang memerlukan. Majlis penyampaian yang berlangsung di Asrama Yayasan Selangor Klang menjadi simbol kepada iltizam ini — bahawa pendidikan kekal sebagai teras pembangunan negeri.

Dalam usaha memperkukuh rantaian pembangunan modal insan sejak peringkat awal, Rancangan Khas Pendidikan Yayasan Selangor (RKPYS) terus menjadi tonggak utama strategi pendidikan Yayasan Selangor. Pada tahun ini, seramai 298 orang pelajar Tingkatan 1 telah dipilih daripada lebih 3,000 permohonan untuk mengikuti pengajian di sekolah-sekolah terpilih di Selangor dan Kuala Lumpur. Mereka hadir daripada keluarga berpendapatan rendah, namun memiliki potensi intelektual dan disiplin diri yang tinggi. Penempatan mereka di institusi berprestij seperti Victoria Institution dan

Sekolah Menengah Kebangsaan Aminuddin Baki bukan sahaja membuka ruang kepada kecemerlangan akademik, malah membentuk keyakinan diri serta jati diri sebagai pemimpin masa hadapan. Usaha ini secara langsung menyumbang kepada pembinaan ekosistem pendidikan yang lebih inklusif dan saksama.

MELALUI KERJASAMA STRATEGIK BERSAMA JABATAN PENDIDIKAN NEGERI SELANGOR, SEMINAR SKOR A+ SPM 2025 TELAH DIANJURKAN DAN MEMBERI MANFAAT KEPADA LEBIH 2,000 ORANG PELAJAR. PROGRAM INI DIRANGKA SECARA HOLISTIK BAGI MENINGKATKAN KEUPAYAAN AKADEMIK, STRATEGI PEMBELAJARAN SERTA KEYAKINAN DIRI PELAJAR DALAM MENGHADAPI PEPERIKSAAN AWAM.

Menyedari bahawa kecemerlangan akademik memerlukan sokongan yang menyeluruh, Yayasan Selangor turut memperkukuh pelbagai inisiatif intervensi pendidikan sepanjang tahun. Melalui kerjasama strategik bersama Jabatan Pendidikan Negeri Selangor, Seminar Skor A+ SPM 2025 telah dianjurkan dan memberi manfaat kepada lebih 2,000 orang pelajar. Program ini dirangka secara holistik bagi meningkatkan keupayaan akademik, strategi pembelajaran serta keyakinan diri pelajar dalam menghadapi peperiksaan awam. Bagi pelajar peringkat prauniversiti pula, bengkel intervensi STPM telah melibatkan hampir 500 orang pelajar dari 64 buah sekolah, dengan tumpuan kepada penguasaan kandungan, kemahiran menjawab soalan dan persediaan mental bagi melangkah ke alam pengajian tinggi.

Dalam masa yang sama, Yayasan Selangor turut menitikberatkan pembangunan sahsiah dan keseimbangan emosi pelajar. Program kerohanian seperti Restu Ilmu dan Solat Hajat yang dianjurkan kepada calon-calon SPM di Asrama Yayasan Selangor bukan sekadar bersifat simbolik, malah berfungsi sebagai medium pembentukan kekuatan dalaman, ketenangan jiwa dan nilai kebergantungan kepada Tuhan dalam menghadapi cabaran akademik. Pendekatan ini selaras dengan aspirasi Yayasan Selangor untuk melahirkan insan yang seimbang dari segi intelek, emosi dan rohani.

Usaha pemerkasaan bakat turut diterjemahkan melalui pelaksanaan Program Bitara yang memberi tumpuan kepada pelajar berpotensi tinggi. Pada tahun ini, tiga orang pelajar cemerlang telah ditawarkan penajaan penuh ke Kolej Yayasan Saad, Melaka, meliputi keseluruhan yuran pengajian, penginapan dan perbelanjaan harian. Kejayaan ini bukan sahaja membuktikan keberkesanan pendekatan pemilihan dan bimbingan Yayasan Selangor, malah mengukuhkan keyakinan bahawa pelaburan dalam pendidikan berkualiti mampu melahirkan generasi pemimpin masa hadapan. Pencapaian cemerlang alumni terdahulu yang berjaya memperoleh keputusan akademik luar biasa turut menjadi bukti nyata bahawa usaha ini berada di landasan yang tepat.

Keseluruhannya, segala inisiatif yang dilaksanakan sepanjang tahun ini berpaksikan kepada satu matlamat utama, iaitu membangunkan modal insan yang berdaya saing, berilmu dan berakhlak tinggi. Moto Yayasan Selangor, “Pendidikan Unggul: Mengupaya Insan, Merealisasi Wawasan”, terus menjadi panduan dalam setiap perancangan dan pelaksanaan program. Setiap pelaburan dalam pendidikan bukan sahaja memberi pulangan kepada individu, malah menyumbang kepada kemajuan negeri dan kesejahteraan masyarakat secara menyeluruh.

Jalinan Strategik dan Pembangunan Profesional

Dalam usaha merealisasikan visi Yayasan Selangor, “Pendidikan Unggul: Mengupaya Insan, Merealisasi Wawasan”, kami sedar bahawa landskap pekerjaan global berkembang pada kadar yang begitu pesat. Bagi memastikan relevansi dan daya saing anak-anak Selangor, Yayasan Selangor telah memperluaskan skop penajaan pendidikan daripada program akademik tradisional ke bidang profesional dan teknikal yang lebih khusus. Matlamat kami adalah untuk memastikan setiap anak Selangor, sama ada berbakat dalam bidang akademik atau teknikal, mempunyai laluan yang jelas, mampan, dan berdaya maju ke arah kerjaya bernilai tinggi.

Salah satu pencapaian penting pada tahun 2025 ialah kerjasama strategik dengan INTEC Education College bagi melaksanakan program perakaunan bertaraf antarabangsa, khususnya ACCA dan ICAEW. Inisiatif ini menjadi jambatan penting bagi para belia, memberi peluang kepada pelajar daripada pelbagai latar belakang, termasuk pemegang SPM, STPM, Diploma dan Ijazah, untuk menembusi profesion berkelas dunia yang berprestij. Program ini bukan sahaja berfokus kepada pembangunan kemahiran teknikal semata-mata, malah selaras dengan aspirasi Pelan Malaysia Ke-13 (RMK-13) 2026-2030 untuk melahirkan modal insan yang berkualiti tinggi. Dengan menanamkan asas integriti serta kemahiran profesional, kita memperkukuh daya saing tenaga kerja Selangor di peringkat global. Sebagai permulaan, kami telah mengenal pasti bakat sejak awal, termasuk melalui sesi taklimat untuk 26 orang pelajar Tingkatan 4 dan 5 di Asrama Sabak Bernam, bagi menanam minat mereka dalam laluan kerjaya profesional ini.

Sementara itu, dalam mengiktiraf kepelbagaian keperluan pembangunan modal insan, Yayasan Selangor turut menjalin kerjasama strategik bersama Perbadanan Hal Ehwal Bekas Angkatan Tentera (PERHEBAT). Fokus utama kerjasama ini merangkumi tiga bidang kritikal iaitu latihan pengelasan (welding), penempatan pelajar, dan penyediaan peluang pekerjaan segera. Keistimewaan kolaborasi ini terletak pada pendekatan holistik dan inklusifnya. Ia memberi impak terus kepada belia bukan akademik, anak-anak daripada keluarga B40, serta bekas anggota tentera yang dihormati. Dengan membekalkan kemahiran teknikal khusus, kita membantu mereka membina masa depan yang lebih stabil, bermaruah dan berdaya maju. Ini selaras dengan aspirasi lebih luas untuk menjadikan Selangor sebagai hab pembangunan modal insan bertaraf nasional.

Komitmen Yayasan Selangor terhadap pembangunan profesional tidak terhenti di situ. Sepanjang tahun, kami telah membina rangkaian kerjasama yang lebih luas dan bersepadu. Lawatan penanda aras daripada Yayasan Sarawak dan Yayasan Islam Negeri Kedah telah membuka ruang perkongsian amalan terbaik dalam pengurusan pelajar dan kemampanan kewangan. Hubungan kami dengan institusi pengajian tinggi negeri, khususnya Universiti Islam Selangor (UIS), turut diperkukuh melalui sesi dialog bagi meneliti potensi kerjasama dalam bidang keusahawanan dan pembangunan holistik belia.

Selain itu, penglibatan Yayasan Selangor dalam program HRD Corp Skills2Sector telah membolehkan setiap latihan dan program pembangunan kemahiran yang ditawarkan diselaraskan dengan keperluan semasa industri. Ini memastikan para pelajar dan peserta latihan bukan sahaja menguasai kemahiran, malah bersedia untuk dihubungkan dengan majikan yang tepat.

Kerjasama ini menandakan satu transformasi penting dalam pendekatan Yayasan Selangor, daripada sekadar menyalurkan bantuan kepada satu bentuk pelaburan dalam potensi manusia. Sama ada melalui pemahaman asas perakaunan atau penguasaan kemahiran teknikal seperti pengelasan, matlamat utama kami ialah membekalkan anak-anak Selangor dengan alat dan kemahiran yang mereka perlukan untuk berjaya dalam abad ke-21. Saya ingin merakamkan penghargaan setinggi-tingginya kepada rakan strategik kami di INTEC, PERHEBAT, dan seluruh pihak di negeri ini yang berkongsi visi kami. Bersama-sama, kita bukan sekadar mengajar kemahiran, tetapi membina kehidupan yang lebih bermakna dan berdaya maju.

Pengukuhan Aset dan Kelestarian Ekonomi

“Bagi memastikan kesinambungan misi sosial Yayasan Selangor dapat dilaksanakan secara berterusan, tahun 2025 menandakan satu fasa penting dalam usaha kami memperkukuh kemampanan ekonomi organisasi. Di bawah kepimpinan saya, Yayasan Selangor telah melaksanakan pendekatan baharu yang lebih strategik ke arah pembentukan model operasi yang mampan dan berdikari, sejajar dengan keperluan semasa serta tuntutan masa hadapan.

Melalui pelaksanaan inisiatif penambahbaikan aset atau Asset Enhancement Initiative (AEI), Yayasan Selangor memberi tumpuan kepada penjanaan sumber pendapatan berterusan bagi menyokong pelaksanaan program pendidikan teras. Pendekatan ini amat penting bagi memastikan keupayaan kewangan Yayasan Selangor kekal kukuh, sekali gus membolehkan usaha pembangunan

modal insan diteruskan secara konsisten dan berimpak tinggi.

Salah satu inisiatif utama yang sedang dilaksanakan ialah pembangunan semula bangunan 12 tingkat milik Yayasan Selangor yang terletak di persimpangan strategik Jalan Bukit Bintang dan Jalan Sultan Ismail. Aset ini sedang ditransformasikan menjadi Sinma Redland Mall, sebuah pembangunan komersial moden yang bukan sahaja meningkatkan nilai hartanah sedia ada, malah berupaya merancakkan aktiviti ekonomi di kawasan berkenaan. Fasa pertama projek ini dijadualkan mula beroperasi pada Disember 2025, manakala keseluruhan pembangunan disasarkan siap sepenuhnya menjelang awal tahun 2027, bertepatan dengan Tahun Melawat Malaysia 2026 bagi memaksimumkan pulangan ekonomi dan kehadiran pengunjung.

Pelaksanaan projek ini turut disokong melalui kerjasama strategik bersama Redland USJ Summit Properties Sdn. Bhd. dan S&M Shopping Arcade Sdn. Bhd. menerusi pemeteraian Memorandum Persefahaman, bagi memastikan pembangunan dilaksanakan secara terancang, mampan dan berdaya maju. Lebih daripada sekadar projek komersial, pembangunan ini merupakan sumber hasil jangka panjang yang akan dimanfaatkan sepenuhnya untuk memperkukuh agenda pendidikan Yayasan Selangor.

Selain itu, Yayasan Selangor turut meluaskan peranannya melalui penyertaan dalam pembangunan Pulau Carey, satu inisiatif berskala besar yang menjadi pemacu kepada pertumbuhan ekonomi masa hadapan negeri Selangor. Penyertaan ini dimuktamadkan selaras dengan aspirasi Kerajaan Negeri untuk membangunkan sebuah hab ekonomi yang pintar, mampan dan berdaya saing di peringkat global.

Pembangunan Pulau Carey merangkumi penubuhan Taman Edu-Teknologi yang menumpukan kepada pendidikan berasaskan teknologi dan inovasi, serta pembangunan Hab Sekuriti Makanan yang dilengkapi kemudahan bertaraf antarabangsa seperti sistem rantaian sejuk, silo bahan mentah dan infrastruktur agro-logistik. Inisiatif ini bukan sahaja menyokong agenda keselamatan makanan negara, malah membuka ruang kepada pembangunan kemahiran, teknologi serta peluang pekerjaan berimpak tinggi.

Secara keseluruhannya, penyertaan Yayasan Selangor dalam pembangunan strategik berskala besar ini mencerminkan komitmen berterusan kami untuk mengimbangi pertumbuhan ekonomi dengan tanggungjawab sosial. Hasil penjanaan daripada aset strategik ini akan dimanfaatkan sepenuhnya bagi memperkukuh program pendidikan, memperluas bantuan kepada pelajar khususnya daripada golongan berpendapatan rendah, serta memastikan tiada anak Selangor tercicir daripada peluang pendidikan. Sejak penubuhannya pada 5 November 1970, Yayasan Selangor kekal komited melahirkan modal insan berkualiti demi membina masa depan negeri Selangor yang lebih mampan, inklusif dan progresif."

Tanggungjawab Sosial dan Keprihatinan Masyarakat

Tatkala kita menelusuri perjalanan sepanjang tahun 2025, yang juga menandakan ulang tahun ke-55 penubuhan Yayasan Selangor, saya berasa amat bersyukur dan terharu dapat berkongsi pencapaian Yayasan Selangor dalam bidang Tanggungjawab Sosial Korporat (CSR). Sejak saya diberi amanah sebagai Ketua Pegawai Eksekutif pada 3 Mac 2025, hasrat saya adalah untuk memastikan Yayasan Selangor bukan sahaja dikenali sebagai peneraju dalam penajaan pendidikan, malah sebagai sebuah institusi yang sentiasa prihatin, penyayang dan dekat di hati masyarakat.

Segala inisiatif CSR yang dilaksanakan berpaksikan kepada moto Yayasan Selangor, iaitu "Pendidikan Unggul: Mengupaya Insan, Merealisasi Wawasan", yang mencerminkan komitmen kami dalam membina insan berilmu serta memperkukuh kesejahteraan sosial secara menyeluruh.

Antara detik paling bermakna dalam perjalanan CSR kami pada tahun ini ialah tindak balas segera Yayasan Selangor susulan tragedi kebakaran saluran paip gas di Putra Heights. Sebagai agensi pelaksana di bawah Jawatankuasa Tetap Pendidikan Negeri Selangor, Yayasan Selangor bertindak pantas bagi memastikan kebajikan dan pendidikan pelajar terjejas terus terpelihara.

Bantuan tunai sebanyak RM500 telah disalurkan kepada 265 orang murid sekolah rendah dan menengah, manakala pelajar institusi pengajian tinggi menerima baucar buku bernilai RM200. Selain itu, sumbangan tablet dan komputer riba turut diberikan bagi memastikan proses pembelajaran mereka tidak terjejas. Sebagai tanda solidariti dan keprihatinan, Yayasan Selangor turut menyumbangkan sebanyak RM10,000 kepada Tabung Prihatin Putra Heights bagi membantu meringankan beban komuniti yang terkesan.

Nilai keprihatinan Yayasan Selangor paling terserlah ketika bulan Ramadan yang penuh keberkatan. Melalui Program Santun Kasih Ramadan dan Aidilfitri, bantuan barangan keperluan asas serta sumbangan kewangan telah disampaikan kepada 20 buah keluarga terpilih, terdiri daripada golongan asnaf, keluarga berpendapatan rendah serta bekas kakitangan Yayasan Selangor.
Lawatan dan penyerahan bantuan ini dilaksanakan di sekitar Puchong, Klang, Kuala Lumpur, Sekinchan dan Sabak Bernam, dengan hasrat agar mereka dapat menyambut Aidilfitri dalam suasana yang lebih tenang, bermaruah dan penuh kesyukuran.

Di samping itu, program Iftar Madani dan Khatam al-Quran di Asrama Yayasan Selangor turut menghimpunkan seramai 350 orang pelajar dan warga kerja dalam suasana penuh ukhuwah. Dalam program ini, sumbangan turut disampaikan kepada anak-anak yatim serta imam dan bilal setempat sebagai tanda penghargaan dan perkongsian rezeki.

Sempena Hari Raya Aidiladha 1446H, Yayasan Selangor meneruskan tradisi keprihatinan melalui penyertaan dalam Program Ibadah Korban bersama komuniti setempat. Di Residensi Bestaria, Gombak, Yayasan Selangor menyumbangkan dua ekor lembu korban dan bersama-sama menyertai aktiviti gotong-royong bersama penduduk serta YAB Dato' Seri Amirudin Shari, Menteri Besar Selangor.
Selain itu, Majlis Muafakat Aidiladha di Asrama Yayasan Selangor turut menyaksikan penglibatan aktif warga kerja, pelajar dan ibu bapa dalam proses penyembelihan serta pengagihan daging korban kepada golongan memerlukan. Program ini bukan sahaja menyemai nilai ihsan dan kebersamaan, malah mengukuhkan ikatan ukhuwah dalam komuniti.

Dalam usaha membudayakan semangat kesukarelawanan, Yayasan Selangor turut menganjurkan Kempen Derma Darah sempena sambutan Hari Malaysia di Menara Yayasan Selangor. Program ini berjaya menarik penyertaan lebih 130 warga kerja dan menjadi platform untuk menyumbang kepada keperluan bekalan darah negara, di samping memupuk nilai empati dan tanggungjawab sosial dalam kalangan kakitangan.

Penutup

Sebagai penutup, saya merakamkan setinggi-tinggi penghargaan kepada Pengerusi, Ahli-Ahli Lembaga Pemegang Amanah, Pengurusan dan seluruh warga kerja Yayasan Selangor, rakan strategik serta para penyumbang yang terus memberikan sokongan padu. Seiring aspirasi Malaysia MADANI dan dasar Kerajaan Negeri Selangor, Yayasan Selangor akan terus melangkah ke hadapan sebagai peneraju pendidikan yang inklusif, progresif dan berdaya tahan demi masa depan anak-anak Selangor.

Saya ingin merakamkan setinggi-tinggi penghargaan kepada semua rakan strategik, para penyumbang, warga kerja serta Kerajaan Negeri Selangor atas sokongan berterusan yang diberikan. Sesungguhnya, kejayaan Yayasan Selangor selama 55 tahun ini bukan hanya diukur melalui angka dan pencapaian, tetapi melalui kehidupan yang telah disentuh, harapan yang telah disemai, dan masa depan yang telah dibina bersama.

Insya-Allah, Yayasan Selangor akan terus melangkah ke hadapan sebagai institusi yang berintegriti, prihatin dan komited dalam memastikan tiada anak Selangor yang tercicir daripada peluang pendidikan dan kehidupan yang lebih baik.

Sekian, terima kasih.

1970

Yayasan Selangor telah ditubuhkan pada 5 November 1970 dan didaftarkan secara rasmi di bawah Akta Syarikat 1965 sebagai sebuah syarikat menurut jaminan. 1975

Program HIPERS (High Performance Rural School) yang dimulakan pada tahun 1986 dilaksanakan di sepuluh buah sekolah rendah di Negeri Selangor. Objektif utamanya adalah untuk meningkatkan pencapaian murid luar bandar dalam Ujian Penilaian Sekolah Rendah (UPSR). Program ini berjaya melonjakkan prestasi murid dan sekolah, sekali gus meningkatkan kecemerlangan pelajar luar bandar dalam UPSR.

Dalam usaha melahirkan barisan pemimpin muda yang berwawasan, berintegriti dan berdaya saing, Yayasan Selangor telah menganjurkan Program Mahasiswa InspireX Leadership 2025, sebuah platform pembangunan kepimpinan yang komprehensif bagi memperkukuh jati diri, kemahiran insaniah dan keupayaan mahasiswa anak Selangor sebagai pemimpin masa hadapan.

Program yang berlangsung pada 3 hingga 5 November 2025 di Akademi Kenegaraan Malaysia (AKM) Kem Tanjung Rhu, Sepang menghimpunkan mahasiswa daripada pelbagai institusi pengajian tinggi untuk mengikuti latihan intensif yang memberi penekanan kepada pembangunan kepimpinan, pemikiran strategik serta pengukuhan nilai-nilai integriti dan profesionalisme.

Sepanjang program, peserta didedahkan kepada pelbagai modul pembangunan kepimpinan yang merangkumi aspek kepimpinan dan pengurusan organisasi, protokol, kemahiran komunikasi, pengurusan kewangan, debat serta kemahiran berucap dan penyampaian idea. Pengisian ini dirangka bagi meningkatkan keyakinan diri, daya kepimpinan serta keupayaan mahasiswa dalam mengurus organisasi dan berinteraksi secara profesional.

Selain sesi latihan di dalam kelas, program ini turut diperkaya dengan aktiviti berkumpulan, aktiviti luar serta sesi Bicara Tokoh yang memberi peluang kepada peserta menimba pengalaman, memperluas perspektif dan mengasah pemikiran kritikal melalui perkongsian bersama tokoh-tokoh berpengalaman. Pendekatan pembelajaran secara interaktif ini turut menggalakkan semangat kerjasama, kreativiti dan kepimpinan dalam kalangan peserta.

Secara keseluruhannya, Program Mahasiswa InspireX Leadership berfungsi sebagai platform strategik Yayasan Selangor dalam membangunkan modal insan berkualiti tinggi dengan melahirkan barisan pemimpin mahasiswa yang berwawasan, berintegriti serta mampu menyumbang secara positif kepada pembangunan masyarakat, negeri dan negara, selaras dengan aspirasi melahirkan generasi pemimpin masa depan yang progresif dan berdaya tahan.

Bagi memperluaskan jaringan kerjasama dan memperkukuh agenda pembangunan pendidikan negara, Yayasan Selangor menerima kunjungan hormat daripada Yayasan Islam Negeri Kedah di Menara Yayasan Selangor sebagai platform untuk bertukar pandangan, berkongsi pengalaman serta meneroka peluang kerjasama yang memberi manfaat kepada pembangunan pelajar.

Pertemuan tersebut membuka ruang kepada kedua-dua institusi untuk meneroka peluang kerjasama dalam pelbagai aspek pembangunan pendidikan, termasuk pengurusan tajaan pelajar, kemudahan asrama, pembangunan sahsiah serta pengukuhan nilai-nilai murni dalam sistem pendidikan.

Delegasi Yayasan Islam Negeri Kedah yang diketuai oleh Encik Abdul Halim Hassan telah disambut oleh Ketua Pegawai Eksekutif Yayasan Selangor, YM Raja Nazirin Shah Raja Mohamad. Sesi perbincangan berlangsung dalam suasana mesra dan produktif dengan penekanan kepada perkongsian pengalaman serta pendekatan terbaik yang boleh dimanfaatkan oleh kedua-dua organisasi.

Yayasan Selangor turut berkongsi pendekatan holistik dalam pengurusan pelajar tajaan, manakala Yayasan Islam Negeri Kedah membentangkan model pendidikan Islam yang memberi penekanan kepada keseimbangan antara kecemerlangan akademik, pembangunan sahsiah dan pembentukan nilai keinsanan.

Kerjasama strategik ini diharap dapat memperkukuh hubungan antara institusi pendidikan negeri, memperluaskan akses kepada pendidikan berkualiti serta menyokong usaha melahirkan generasi yang berilmu, berakhlak mulia dan berdaya saing, selaras dengan aspirasi pembangunan modal insan negara.

12. Yayasan Selangor Perkukuh Kolaborasi Strategik Bagi Pembangunan Pulau Carey

Satu lagi langkah strategik ke arah pembangunan mampan negeri direalisasikan apabila Yayasan Selangor menjalinkan kerjasama bersama Permodalan Negeri Selangor Berhad (PNSB), SD Guthrie Berhad dan IJM Corporation Berhad melalui pemeteraian Memorandum Persefahaman (MoU) bagi pembangunan Taman Edu-Teknologi (Edu-Tek Park) dan Hab Sekuriti Makanan di Pulau Carey.

Kerjasama ini merupakan sebahagian daripada usaha menyokong aspirasi Kerajaan Negeri Selangor untuk menjadikan negeri ini lebih pintar, lestari dan berdaya saing melalui pembangunan berasaskan inovasi, teknologi, ekonomi hijau dan sekuriti makanan yang mampan.

Inisiatif tersebut dijangka memperkasa Pulau Carey sebagai pusat pembangunan bersepadu bertaraf antarabangsa yang menggabungkan elemen teknologi, pendidikan, penyelidikan dan agro-logistik, sekali gus mengukuhkan kedudukan Selangor dalam rantaian nilai halal serta sekuriti makanan di peringkat serantau dan global.

Projek ini turut mencerminkan keyakinan sektor swasta terhadap potensi Pulau Carey sebagai hab pertumbuhan ekonomi baharu yang mampu menarik pelaburan strategik serta mewujudkan peluang pembangunan yang memberi manfaat kepada rakyat dan negeri.

Bagi Yayasan Selangor, kerjasama ini membuka ruang kepada penjanaan sumber pendapatan yang lebih mampan bagi memperkukuh agenda pendidikan negeri. Dana yang dijana daripada pembangunan tersebut akan disalurkan kepada pelaksanaan program pendidikan, tajaan pembelajaran serta bantuan kewangan kepada pelajar, khususnya daripada keluarga berpendapatan rendah.

Melalui inisiatif ini, Yayasan Selangor terus komited menyokong pembangunan modal insan yang berkualiti dengan memastikan hasil pembangunan ekonomi dapat diterjemahkan kepada peluang pendidikan yang lebih luas, sekali gus melahirkan generasi Selangor yang berilmu, berdaya saing dan berintegriti untuk masa hadapan.

13. Yayasan Selangor Jalin Kerjasama Strategik Bersama Perhebat Perkasa Latihan Dan Peluang Pekerjaan

Yayasan Selangor terus memperkukuh agenda pembangunan modal insan melalui jalinan kerjasama strategik bersama Perbadanan Hal Ehwal Bekas Angkatan Tentera (PERHEBAT) bagi membuka lebih banyak peluang latihan kemahiran dan pekerjaan kepada golongan belia, khususnya mereka daripada keluarga berpendapatan rendah dan komuniti veteran Angkatan Tentera Malaysia (ATM).

Kerjasama ini memberi tumpuan kepada tiga komponen utama, iaitu latihan kimpalan, penempatan pelajar dan penyediaan peluang pekerjaan yang mampu memberi impak langsung kepada golongan belia bukan akademik, anak-anak daripada keluarga B40 serta komuniti veteran ATM yang ingin meningkatkan kemahiran dan membina masa depan yang lebih mampan melalui pendidikan teknikal dan vokasional (TVET).

Sesi perbincangan mengenai pelan kerjasama tersebut diketuai oleh Ketua Pegawai Eksekutif Yayasan Selangor, YM Raja Nazirin Shah Raja Mohamad, dan disambut oleh Pengerusi PERHEBAT, Prof. Emerita Datuk Dr. Roziah Omar, bersama Ketua Pengarah PERHEBAT, Dato' Ts. Amir Md Noor.

Perbincangan turut memberi fokus kepada pembangunan program latihan yang memenuhi keperluan industri semasa, pemindahan ilmu dan kemahiran teknikal serta penyediaan laluan kerjaya yang lebih sistematik bagi memastikan peserta mempunyai peluang pekerjaan yang lebih baik selepas tamat latihan.

Kerjasama strategik ini bukan sahaja menyediakan latihan dan pemindahan ilmu, malah mewujudkan laluan kerjaya yang mampan, selaras dengan visi Yayasan Selangor untuk memperkukuh pembangunan modal insan serta menjadikan Selangor sebagai hab pendidikan dan latihan kemahiran yang berdaya saing demi memenuhi keperluan industri masa hadapan.

15. Sinma Redland Mall: Projek Naik Taraf Bangunan Yayasan Selangor Hidupkan Aset Strategik Ibu Negara

Yayasan Selangor terus mengorak langkah memperkukuh kedudukan kewangan organisasi melalui pembangunan semula aset strategiknya di pusat bandar Kuala Lumpur yang bakal dijenamakan sebagai Sinma Redland Mall, sekali gus membuka peluang penjanaan pendapatan baharu bagi menyokong agenda pembangunan pendidikan negeri.

Bangunan 12 tingkat milik Yayasan Selangor yang terletak di persimpangan Jalan Bukit Bintang dan Jalan Sultan Ismail kini sedang menjalani proses naik taraf bagi menyediakan ruang komersial yang lebih moden, dinamik dan mesra pengunjung. Projek ini dijangka memberi nafas baharu kepada aset berkenaan serta merancakkan aktiviti ekonomi di kawasan sekitarnya.

Fasa pertama pembangunan yang melibatkan tiga tingkat terawal dijadualkan dibuka pada Disember 2025, manakala keseluruhan projek disasarkan siap sepenuhnya pada awal tahun 2027. Pembangunan ini turut dijangka memberi nilai tambah kepada sektor pelancongan dan perdagangan sempena Tahun Melawat Malaysia 2026.

Menurut Ketua Pegawai Eksekutif Yayasan Selangor, YM Raja Nazirin Shah Raja Mohamad, projek pembangunan semula ini bukan sahaja mengoptimumkan nilai aset strategik yayasan di ibu negara, malah berpotensi menjadi sumber pendapatan mampan yang akan dimanfaatkan bagi memperkukuh pelaksanaan program pendidikan dan kebajikan rakyat Selangor.

Seiring dengan pelaksanaan projek tersebut, satu Memorandum Persefahaman (MoU) telah dimeterai antara pemaju projek, Redland USJ Summit Properties Sdn. Bhd. dan S&M Shopping Arcade Sdn. Bhd., sebagai langkah penting dalam merealisasikan pembangunan semula bangunan berkenaan. Inisiatif ini mencerminkan komitmen Yayasan Selangor untuk mengurus aset secara strategik demi memastikan manfaat jangka panjang dapat disalurkan kembali kepada pembangunan pendidikan dan modal insan negeri Selangor.

16. Kunjungan Hormat Universiti Islam Selangor Ke Yayasan Selangor

Usaha memperkukuh pembangunan pendidikan tinggi dan modal insan di negeri Selangor terus diperkasakan apabila Yayasan Selangor dan Universiti Islam Selangor (UIS) mengadakan sesi perbincangan strategik bagi meneroka peluang kerjasama yang mampu memberi manfaat kepada pembangunan generasi muda pada masa hadapan.

Delegasi UIS yang diketuai oleh Naib Canselor, Dato' Prof. Dr. Mohd Farid Ravi Abdullah, telah mengadakan kunjungan hormat ke Yayasan Selangor pada 1 Oktober 2025 dan disambut oleh Ketua Pegawai Eksekutif Yayasan Selangor bersama barisan pengurusan kanan yayasan.

Pertemuan tersebut memberi tumpuan kepada perbincangan mengenai potensi kerjasama strategik dalam pelbagai bidang, khususnya pembangunan pendidikan tinggi serta pelaksanaan inisiatif pembangunan belia secara holistik yang merangkumi aspek pendidikan, keusahawanan dan pembangunan modal insan.

Selain bertukar pandangan mengenai program yang boleh dilaksanakan secara bersama, kedua-dua pihak turut meneroka peluang kerjasama yang mampu memperluaskan akses pendidikan berkualiti serta meningkatkan pembangunan bakat dan kepimpinan generasi muda di Selangor.

Kunjungan ini mencerminkan komitmen Yayasan Selangor dan Universiti Islam Selangor untuk terus memperkukuh hubungan strategik dalam usaha melahirkan generasi yang berilmu, berkemahiran, berintegriti dan berdaya saing, selaras dengan aspirasi pembangunan pendidikan negeri dan negara.

17. Makan Malam 55 Tahun Yayasan Selangor Raikan Kecemerlangan Pendidikan Dan Kebajikan

Transformasi

DAN PENGURUSAN KUALITI

Bab 4

Memacu Transformasi Organisasi ke Arah Institusi Pendidikan Negeri yang Progresif, Digital dan Berprestasi Tinggi

PENGENALAN

Tahun 2025 merupakan satu titik perubahan yang signifikan dalam landskap pengurusan Yayasan Selangor (YS) apabila pelbagai agenda transformasi organisasi dilaksanakan secara menyeluruh bagi memperkukuh kedudukan yayasan sebagai agensi peneraju pendidikan negeri Selangor. Selaras dengan aspirasi Kerajaan Negeri Selangor untuk memperkasakan pembangunan modal insan dan meningkatkan daya saing pendidikan negeri, Yayasan Selangor telah memulakan langkah reformasi yang bukan sahaja memberi fokus kepada penyampaian program pendidikan, malah turut melibatkan aspek tadbir urus, pengurusan prestasi, pendigitalan sistem, pembangunan modal insan, pengurusan aset dan budaya kerja organisasi.

Transformasi yang dilaksanakan berteraskan prinsip Good Governance, Digitalisation, Productivity, Accountability dan Sustainability, dengan matlamat mewujudkan sebuah organisasi yang lebih tangkas, berintegriti, cekap dan mampu memberi impak yang lebih besar kepada pembangunan pendidikan negeri.

Bagi memastikan agenda transformasi ini dilaksanakan secara sistematik dan berterusan, Yayasan Selangor telah menggerakkan beberapa inisiatif utama sepanjang tahun 2025, antaranya Kajian Transformasi Bahagian Pendidikan, Projek Peningkatan Produktiviti Organisasi (YS Productivity Drive 2025) serta pengukuhan Sistem Pengurusan Kualiti MS ISO 9001:2015 sebagai instrumen penting dalam memperkasakan kecemerlangan organisasi.

Program Transformasi Bahagian Pendidikan Yayasan Selangor 2025

Mentransformasikan Ekosistem Pendidikan Negeri

Pelaksanaan Kajian Transformasi Bahagian Pendidikan Yayasan Selangor Fasa 2 yang disempurnakan pada Disember 2025 merupakan antara pencapaian paling penting dalam usaha memperkukuh fungsi Yayasan Selangor sebagai Agensi Peneraju pendidikan negeri Selangor sebagaimana yang digariskan di bawah Belanjawan Selangor 2023.

Kajian ini dibangunkan secara menyeluruh melalui proses libat urus bersama pihak pengurusan, pegawai pelaksana, agensi kerajaan negeri, institusi pendidikan serta pihak berkepentingan bagi memastikan hala tuju baharu Yayasan Selangor lebih relevan dengan cabaran pendidikan masa hadapan.
Pelan Strategik Yayasan Selangor 2025–2030 yang dihasilkan menggunakan kerangka **House of Excellence** menjadi dokumen rujukan utama dalam menggerakkan transformasi organisasi secara menyeluruh.

Transformasi tersebut memberi penekanan kepada pembinaan organisasi yang lebih berorientasikan data, digital, kolaboratif dan berimpak tinggi melalui tujuh teras strategik utama iaitu:

Ketujuh-tujuh teras ini dirangka bagi memastikan Yayasan Selangor mampu berfungsi sebagai institusi pendidikan negeri yang lebih responsif terhadap perubahan landskap pendidikan global, perkembangan teknologi serta keperluan pembangunan bakat masa hadapan.

Sepanjang tahun 2025, beberapa inisiatif awal telah mula dilaksanakan termasuk penambahbaikan struktur pengurusan pendidikan, pengukuhan sistem pemantauan program, penyelarasan semula pengurusan asrama serta pembangunan jaringan strategik bersama institusi pengajian tinggi, industri dan agensi kerajaan.

Pelaksanaan transformasi ini akan diteruskan secara berperingkat sehingga tahun 2030 mengikut keutamaan strategik dan kemampuan organisasi.

Projek Peningkatan Produktiviti YS 2025 (YS Productivity Drive 2025)

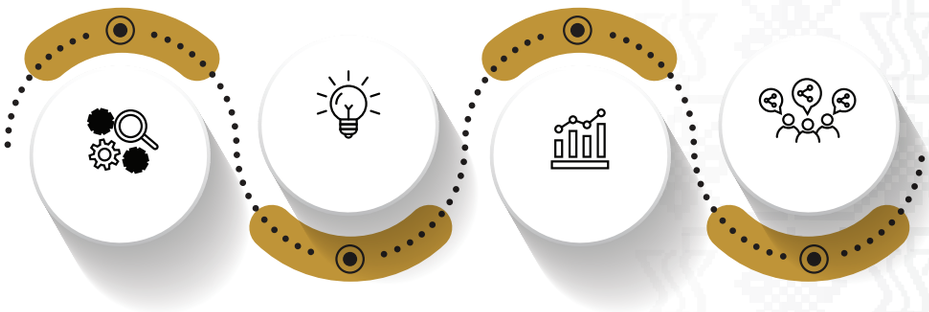

Dalam usaha meningkatkan kecekapan organisasi, Yayasan Selangor melancarkan YS Productivity Drive 2025 pada Julai 2025 sebagai salah satu agenda transformasi organisasi yang memberi fokus kepada pembentukan budaya kerja berprestasi tinggi.

Berbeza dengan inisiatif penambahbaikan biasa, projek ini dirangka sebagai pelan transformasi jangka panjang yang bertujuan memperkukuh sistem pengurusan organisasi secara menyeluruh melalui pendekatan yang lebih sistematik, digital dan berasaskan prestasi.

YS Productivity Drive 2025 dibangunkan berteraskan empat komponen utama iaitu:

Polisi Organisasi : Semakan semula dasar dan polisi sedia ada dilaksanakan bagi memastikan setiap polisi lebih jelas, relevan dan selari dengan keperluan semasa organisasi.

Pemantapan Sistem KPI: Kaedah pemantauan prestasi bahagian dan individu diperkukuh melalui sistem penilaian yang lebih objektif, telus dan berasaskan data.

Penambahbaikan SOP : Standard Operating Procedure (SOP) disusun semula bagi menyeragamkan proses kerja, mengurangkan pertindihan fungsi serta meningkatkan kecekapan penyampaian perkhidmatan.

Pelaksanaan Balanced Scorecard (BSC) : Kerangka Balanced Scorecard diperkenalkan bagi mengintegrasikan prestasi kewangan, pelanggan, proses dalaman dan pembangunan organisasi dalam satu sistem pemantauan strategik yang komprehensif.

Pelaksanaan projek ini disokong sepenuhnya oleh semua Ketua Bahagian yang telah memberikan komitmen melalui akujanji pelaksanaan kepada Bahagian Pengurusan Projek selaku urusetia.

Sebagai organisasi yang mengamalkan prinsip Low Cost, High Impact, Yayasan Selangor memanfaatkan platform Microsoft Planner melalui Microsoft Teams bagi tujuan pemantauan projek dan KPI secara masa nyata.

Pendekatan digital ini meningkatkan tahap ketelusan pelaksanaan projek, memperkukuh disiplin pelaporan, memudahkan pemantauan status tugasan dan mempercepatkan proses membuat keputusan pengurusan.

Walaupun impak keseluruhan inisiatif ini dijangka dapat dinilai dalam tempoh tiga hingga lima tahun akan datang, asas transformasi yang dibina pada tahun 2025 dijangka menjadi pemangkin kepada peningkatan produktiviti organisasi secara mampan.

Sistem Pengurusan Kualiti Ms ISO 9001:2015

Memperkukuh Budaya Kualiti dan Tadbir Urus Organisasi

Sejak memperoleh pensijilan ISO pada tahun 2000, Yayasan Selangor terus mengekalkan komitmen tinggi terhadap amalan pengurusan berkualiti melalui pelaksanaan Sistem Pengurusan Kualiti (SPK).

Bermula tahun 2020, Yayasan Selangor beralih kepada standard MS ISO 9001:2015, yang memberi penekanan kepada pengurusan risiko, kepimpinan organisasi, penambahbaikan berterusan serta kepuasan pelanggan.

Sepanjang tahun 2025, pelbagai usaha telah dilaksanakan bagi memastikan sistem ini terus diperkasa dan menjadi budaya kerja dalam organisasi.

Kemuncak kepada usaha tersebut ialah pelaksanaan Audit Pensijilan Semula MS ISO 9001:2015 oleh SIRIM QAS International Sdn. Bhd. pada 4 hingga 5 Disember 2025 yang diketuai oleh Dr. Roslina Bt. Sailan.

Audit tersebut merekodkan satu pencapaian yang membanggakan apabila Yayasan Selangor tidak menerima sebarang Laporan Ketidakakuran (Non-Conformance Report - NCR) dan hanya menerima beberapa Cadangan Penambahbaikan (Opportunity for Improvement - OFI).

Pencapaian ini membolehkan pensijilan MS ISO 9001:2015 dikekalkan sehingga 6 Disember 2028, sekali gus membuktikan keberkesanan sistem tadbir urus, pengurusan risiko dan budaya penambahbaikan berterusan yang diamalkan di seluruh organisasi.

Sebagai persediaan menghadapi audit tersebut, Urusetia Sistem Pengurusan Kualiti turut menganjurkan Program Peningkatan Kompetensi Auditor Dalaman bersama AJA EQS Certification (M) Sdn. Bhd. pada 13 hingga 14 Ogos 2025.

Program ini bertujuan meningkatkan kompetensi auditor dalaman dalam memahami keperluan standard ISO, memperkukuh kemahiran audit serta memastikan setiap bahagian melaksanakan tindakan penambahbaikan secara konsisten.

Selain itu, Bahagian Pengurusan Projek (PMO) turut diberikan mandat sebagai peneraju Jawatankuasa Sistem Pengurusan Kualiti bagi memastikan pelaksanaan SPK diselaraskan dengan agenda transformasi organisasi serta budaya kecemerlangan yang ingin dibentuk.

RUMUSAN

Secara keseluruhannya, tahun 2025 merupakan tahun yang amat signifikan dalam sejarah transformasi Yayasan Selangor apabila pelbagai pembaharuan berjaya dilaksanakan bagi memperkukuh sistem pengurusan organisasi, meningkatkan produktiviti, memperkasakan tadbir urus serta memperkukuh budaya kualiti di semua peringkat.

Pelaksanaan Kajian Transformasi Bahagian Pendidikan, YS Productivity Drive 2025 serta kejayaan mengekalkan pensijilan MS ISO 9001:2015 membuktikan komitmen Yayasan Selangor dalam membentuk organisasi yang lebih progresif, berdaya saing dan berorientasikan prestasi.

Transformasi ini bukan sekadar melibatkan penambahbaikan proses kerja, tetapi merupakan perubahan budaya organisasi yang menekankan inovasi, integriti, akauntabiliti dan kecemerlangan perkhidmatan sebagai asas kepada pembangunan pendidikan negeri.

Dengan pelaksanaan Pelan Strategik Yayasan Selangor 2025–2030 secara berterusan, Yayasan Selangor diyakini akan terus memainkan peranan sebagai institusi pendidikan negeri yang unggul, mampan dan relevan dalam melahirkan generasi Selangor yang berilmu, berkemahiran, berdaya saing dan mampu menyumbang kepada pembangunan negeri serta negara pada masa hadapan.

Chairman's Message

CHIEF MINISTER OF SELANGOR AND CHAIRMAN OF YAYASAN SELANGOR

Alhamdulillah, all praise and utmost gratitude are due to Allah SWT for His countless blessings and grace. By His will, the State of Selangor Darul Ehsan continues to enjoy peace, stability, and prosperity while remaining steadfast in its commitment to the well-being of its people. The harmony, stability, and progress we enjoy today are the result of continuous collaboration and the unwavering dedication of various stakeholders in advancing the state's sustainable development for the benefit of the people of Selangor.

For decades, Selangor has been recognised as one of Malaysia's leading states in educational development. The state's remarkable progress is reflected not only in its economic strength and modern infrastructure, but also in its unwavering commitment to nurturing knowledgeable, highly skilled, and competitive human capital.

As one of Selangor's leading educational institutions, Yayasan Selangor plays a key role in advancing educational excellence across the state, contributing significantly to Selangor's educational development. Over the years, thousands of young people in Selangor have benefited from a wide range of educational initiatives, including residential school programmes, scholarships, education loans, and academic excellence programmes. This commitment is reflected through key initiatives such as the Special Education Scheme, high-achiever sponsorships, and talent and character development programmes, all of which provide meaningful opportunities for the younger generation to realise their full potential. Through these efforts, Yayasan Selangor continues to empower future generations by expanding access to quality education, nurturing talent, and supporting the holistic development of students for the benefit of Selangor and the nation.

Furthermore, the State Government continues to strengthen the education ecosystem through a wide range of academic support programmes, including examination excellence seminars that benefit thousands of students each year in preparation for major national examinations. These initiatives not only help students achieve better academic outcomes but also nurture knowledgeable, confident, and resilient young people who are well prepared to meet future challenges.
At the same time, the State Government remains committed to ensuring inclusive access to education through various financial assistance schemes, scholarships, and sponsorship programmes for students from low-income families, enabling them to pursue higher education at reputable institutions and realise their academic aspirations.

The State Government also continues to strengthen higher education through its own institutions, such as Universiti Selangor and Universiti Islam Selangor, which provide

quality education across a broad range of professional, technical, and Islamic disciplines. Both institutions play a vital role in producing competent, industry-ready graduates who contribute to the socio-economic development of Selangor and the nation.

At the school level, the State Government reinforces academic success through targeted support initiatives like the Selangor People's Tuition (PTRS). This programme provides crucial academic reinforcement for students from low-income households, helping them achieve stronger results in key national examinations.

Additionally, financial assistance initiatives such as the Selangor Tertiary Education Grant have been introduced to help ease the financial burden on families while encouraging more young people in Selangor to pursue higher education.

Collectively, these initiatives reflect the State Government's unwavering commitment to positioning Selangor not only as a leading economic powerhouse but also as a premier centre for educational excellence and human capital development. Through sustained investment in education, the State Government continues to nurture knowledgeable, skilled, and competitive future leaders who are well equipped to contribute to the continued progress of Selangor and the nation.

This commitment was further demonstrated through the Selangor Budget 2025, which positioned education as a key strategic priority within the State's development agenda. Under the budget, a total allocation of RM79.95 million was dedicated to the education sector to strengthen human capital development and support the continued advancement of educational institutions and the broader education ecosystem across the state.

The allocation supports a wide range of initiatives benefiting students, educational institutions, and school communities. These include educational assistance, school infrastructure development, academic excellence programmes, and the strengthening of state educational institutions such as Yayasan Selangor. Together, these initiatives reflect the State Government's unwavering commitment to expanding access to quality, inclusive education for the people of Selangor. This strategic approach is aligned with the State Government's future direction to position Selangor as a leading centre of educational excellence in Malaysia through sustained investment in the knowledge, skills, and potential of the younger generation. By empowering future generations, the State Government aims to ensure that Selangor continues to drive innovation, economic growth, and sustainable development for the benefit of both the state and the nation.

A Legacy of Compassion and Excellence

In conjunction with the 55th anniversary of Yayasan Selangor on 5 November 2025, we reflect on the remarkable journey of an institution that has established itself as one of Selangor's leading educational institutions. Since its establishment more than five decades ago, Yayasan Selangor has evolved from a state educational initiative into a catalyst for social mobility, making a lasting contribution to human capital development.

Over the years, Yayasan Selangor has remained steadfast in its commitment to expanding access to quality education, empowering local talent, and shaping the future of Selangor's younger generation regardless of their socio-economic background. This enduring legacy is founded on the belief that education is a fundamental right for every child and a powerful catalyst for transforming lives.

Throughout its journey, Yayasan Selangor has benefited thousands of students through a comprehensive range of educational programmes, including financial assistance, residential school facilities, scholarships, study loans, as well as academic and personal development initiatives. Flagship programmes such as the Special Education Scheme, high-achiever sponsorships, and academic intervention initiatives have provided invaluable opportunities for students to excel academically while nurturing a knowledgeable, resilient, and competitive generation ready to contribute to the future development of Selangor and the nation.

Beyond providing educational assistance, Yayasan Selangor plays a key role in shaping students' character and identity through a holistic development approach that emphasises a balance between academic

excellence, strong values, and leadership qualities. Through this approach, many Yayasan Selangor alumni have gone on to achieve success across diverse professional fields and sectors, contributing meaningfully to society and the nation's development.

The belief that every child deserves an equal opportunity to succeed remains the foundation of every policy and programme implemented by Yayasan Selangor. This principle continues to guide its commitment towards providing inclusive access to quality education, particularly for students from the B40 community and low-income families.

This approach underscores Yayasan Selangor's continued commitment to ensuring that education is not an exclusive privilege, but a shared right that creates pathways for social mobility and enhances the well-being of future generations.

Yayasan Selangor's motto, represents more than just a slogan; it reflects the organisation's long-term commitment to nurturing a knowledgeable, skilled, and values-driven generation.

It embodies the aspiration to develop individuals who are not only academically accomplished, but also demonstrate high integrity, competitiveness, and the ability to lead and contribute to the future advancement of Selangor and the nation.

Visionary Education: The Cornerstone of Future Development

The Selangor State Government places education as a key pillar of state development and a fundamental foundation for building a progressive and resilient society. This commitment is rooted in the belief that education serves as a catalyst for social mobility, economic growth, and sustainable long-term prosperity.

Through various strategic initiatives and inclusive policies, Selangor continues to strengthen its position as a centre of educational excellence, supported by state educational institutions such as Universiti Selangor and Universiti Islam Selangor. These institutions play a vital role in producing knowledgeable, skilled, and competitive graduates who contribute to the development of the state and the nation.

A key priority of the state's education agenda is to ensure that students from low-income backgrounds, particularly B40 families, are not left behind in accessing quality education opportunities. In this regard, various forms of assistance and support are channelled through initiatives such as the BUDI Programme, which provides outstanding students from underprivileged families with opportunities to pursue higher education and realise their full potential.

Yayasan Selangor disbursed over RM2 million to approximately 4,000 students in 2025, representing a strategic investment in developing human capital and nurturing future leaders of Selangor and the nation. In line with a holistic development approach, the State Government recognises that human development should not focus solely on academic achievement, but must also encompass character building, strong values, and personal identity. Accordingly, Yayasan Selangor continues to emphasise a balance between intellectual excellence, self-discipline, and spiritual strength across all its programmes.

The Yayasan Selangor hostel facilities in Klang and Sabak Bernam serve not only as student accommodation but also as platforms for holistic character formation and personal development. Various self-development programmes, such as Khatam al-Quran, Iftar Madani, Solat Hajat, and Majlis Restu Ilmu, are conducted to instil values of gratitude, discipline, responsibility, and camaraderie among students.

Through this approach, students are equipped not only with academic knowledge but also with strong values, self-confidence, and resilience to overcome future challenges.

STRATEGIC PLAN: STRENGTHENING THE SUSTAINABILITY OF YAYASAN SELANGOR

"TO ENSURE THE LONG-TERM SUSTAINABILITY OF YAYASAN SELANGOR'S MISSION, 2025

MARKED A KEY STRATEGIC SHIFT TOWARDS FINANCIAL EMPOWERMENT AND MORE SUSTAINABLE, COMPETITIVE ASSET MANAGEMENT. THIS APPROACH FORMS AN INTEGRAL PART OF THE ORGANISATION'S TRANSFORMATION EFFORTS TO ENSURE THAT YAYASAN SELANGOR REMAINS RELEVANT, RESILIENT, AND CAPABLE OF ADVANCING THE STATE'S EDUCATIONAL AGENDA ON A CONTINUOUS BASIS."

The primary focus of this approach is the implementation of Asset Enhancement Initiatives (AEI), aimed at generating sustainable revenue streams to support future educational funding requirements. This strategy is essential in reducing reliance on conventional funding sources while strengthening Yayasan Selangor's overall financial resilience.

Among the key projects under this initiative is the redevelopment of the 12-storey building located at the junction of Jalan Bukit Bintang and Jalan Sultan Ismail into Sinma Redland Mall, which commenced operations in December 2025. This strategic development not only enhances the value of Yayasan Selangor's assets but is also expected to provide a stable and sustainable long-term revenue stream to support the state's educational agenda.

In addition, Yayasan Selangor continues to play an active role in strategic developments on Carey Island through its involvement in the Edu-Tek Park and Food Security Hub projects, in collaboration with strategic partners. This collaboration reflects the strong synergy between the public and private sectors in supporting integrated state development.

The Carey Island initiative not only contributes towards strengthening the national food security agenda but also creates opportunities for the development of an education ecosystem, technical training capabilities, and quality employment opportunities for the younger generation. This aligns with Yayasan Selangor's aspiration to develop human capital that is not only knowledgeable but also equipped with the skills and capabilities to meet future industry demands.

Empowering Potential Through Education And Compassion

Driven by this vision, Yayasan Selangor believes that every child has unique potential that must be guided, developed, and empowered through trust, commitment, and compassion. Built upon this philosophy, Yayasan Selangor continues to advance inclusive and impactful educational programmes, ensuring that no talent is left behind in the state's development journey.

Through the Yayasan Selangor Special Education Scheme (RKPYS), a total of 298 Form 1 students were placed across 27 selected schools for the 2025/2026 academic session. Selected from thousands of applicants across the state, this intake reflects a competitive and merit-based selection process that identifies students with strong potential. These students are provided with opportunities to excel within a structured, supportive, and quality educational environment, supported by continuous academic and personal development programmes.

Complementing these efforts, the Bitara Programme continues to demonstrate its effectiveness in nurturing high-achieving students, with three students receiving full sponsorships to pursue their studies at Kolej Yayasan Saad, Melaka, one of the country's leading educational institutions. This achievement serves as clear testament that, with targeted educational support and opportunities, students from diverse backgrounds can excel and compete at the highest levels.

In line with its commitment to social responsibility, Yayasan Selangor also continued to play an active role in supporting the community during challenging times. Following the gas pipeline fire incident in Putra Heights, immediate assistance was extended to affected students and their families through financial contributions, book vouchers, learning equipment, and corporate social responsibility (CSR) support. This swift response reflects Yayasan Selangor's commitment to standing with the community not only during moments of achievement but

also in times of hardship and need.

Overall, these initiatives demonstrate Yayasan Selangor's commitment to not only providing educational assistance but also developing a comprehensive support ecosystem founded on compassion, equal opportunities, and the holistic development of human potential.

Building Future Skilled and Professional Talent Recognising the rapid changes in the global job market, driven by technology, digitalisation, and the growing needs of high-value industries, Yayasan Selangor continues to strengthen its role in professional education, technical training, and future skills development.

This effort reflects Yayasan Selangor's commitment to ensuring that human capital development in Selangor goes beyond academic education by providing relevant skills, professional pathways, and career opportunities that meet current and future workforce needs.

Through a strategic partnership with INTEC Education College, students are given opportunities to pursue internationally recognised professional qualifications such as ACCA and ICAEW. This initiative supports the development of a skilled workforce in areas such as finance, accounting, and professional services, in line with national development priorities, including the aspirations of the 13th Malaysia Plan (RMK13).

At the same time, Yayasan Selangor continues to strengthen technical skills development through collaboration with the Ex-Servicemen Affairs Corporation (PERHEBAT). This initiative aims to improve employability and create better career opportunities for the targeted groups.

This initiative not only creates wider employment opportunities but also contributes to building confidence, improving economic stability, and creating a more secure future for the beneficiaries. It reflects Yayasan Selangor's inclusive, progressive, and long-term commitment towards creating a positive social impact.

At the same time, Yayasan Selangor's involvement in the Skills2Sector programme organised by HRD Corp further strengthens efforts to align skills training with current industry needs. This participation ensures that the programmes implemented remain relevant to the job market while enhancing the employability of graduates and trainees. Overall, this approach supports Selangor's aspiration to become a leading hub for human capital development by establishing a dynamic and responsive education and training ecosystem that meets the needs of the future economy.

In closing, I would like to express my deepest appreciation to the entire team at Yayasan Selangor, our strategic partners, educators, and all stakeholders who continue to support the state's educational agenda. To our students, embrace every opportunity provided with dedication and determination. To all Yayasan Selangor staff members, continue to serve with integrity, commitment, and sincerity. Together, we will continue to shape a brighter future for Selangor through quality, inclusive, and values-driven education.

Wabillāhi Taufīq wal-Hidāyah, Wassalāmu'alaikum Warahmatullāhi Wabarakātuh.

YAB Dato' Seri Amirudin Shari
Chief Minister of Selangor, Chairman of Yayasan Selangor

Message from

THE CHIEF EXECUTIVE OFFICER YAYASAN SELANGOR

Assalamualaikum Warahmatullahi Wabarakatuh and Warm Greetings.

Alhamdulillah, all praise and utmost gratitude are due to Allah SWT for His abundant blessings, which have enabled Yayasan Selangor to continue advancing its role as an institution dedicated to educational empowerment and community well-being in Selangor. The year 2025 marks a significant milestone as Yayasan Selangor celebrates its 55th anniversary, representing an important moment in shaping and strengthening the organisation's future direction.

I am deeply honoured to be entrusted with the responsibility of serving as the Chief Executive Officer of Yayasan Selangor, effective 3 March 2025. Drawing upon my experience in the corporate and real estate sectors, I am committed to strengthening Yayasan Selangor as a sustainable, competitive, and self-reliant organisation, ensuring the continuity and advancement of its educational agenda for the children of Selangor.

All initiatives implemented throughout the year remain guided by Yayasan Selangor's motto: "Pendidikan Unggul: Mengupaya Insan, Merealisasi Wawasan."

Educational Empowerment and Human Capital

Throughout 2025, Yayasan Selangor continued to strengthen its role as a catalyst for social mobility and educational advancement, particularly among the B40 community. We believe that access to quality education should not be limited by socioeconomic background. Instead, it should be an opportunity available to every child with the potential to succeed. Guided by this principle, Yayasan Selangor disbursed more than RM2 million in scholarship assistance to approximately 4,000 students. This initiative goes beyond financial support—it represents a meaningful commitment by the State Government to ensure educational continuity and opportunities for children in need. The scholarship presentation ceremony held at the Yayasan Selangor Klang Hostel symbolised this commitment, reaffirming that education remains a key driver of state development.

In strengthening the human capital development journey from an early stage, the Yayasan Selangor Special Education Scheme (RKPYS) continues to serve as a key component of Yayasan Selangor's educational strategy. In 2025, a total of 298 Form 1 students were selected from more than 3,000 applications to pursue their studies at selected schools across Selangor and Kuala Lumpur. Coming from low-income families, these students demonstrate strong academic potential, discipline, and determination to succeed. Their placement in recognised institutions, including Victoria Institution and Sekolah

Menengah Kebangsaan Aminuddin Baki, not only supports academic achievement but also nurtures confidence, character, and leadership qualities needed for the future. This initiative contributes towards building a more inclusive and equitable education ecosystem.

THROUGH A STRATEGIC COLLABORATION WITH THE SELANGOR STATE EDUCATION DEPARTMENT, THE SPM A+ SCORE SEMINAR 2025 WAS CONDUCTED TO SUPPORT MORE THAN 2,000 STUDENTS. THE PROGRAMME WAS STRUCTURED HOLISTICALLY TO STRENGTHEN ACADEMIC PERFORMANCE, IMPROVE LEARNING TECHNIQUES, AND BUILD STUDENTS' CONFIDENCE IN FACING MAJOR EXAMINATIONS.

Recognising that academic excellence requires comprehensive support, Yayasan Selangor continued to strengthen its educational intervention initiatives throughout the year. Through a strategic partnership with the Selangor State Education Department, the SPM 2025 Score A+ Seminar was organised, benefiting more than 2,000 students. The programme was designed holistically to enhance students' academic capabilities, learning strategies, and confidence in preparing for public examinations. For pre-university students, STPM intervention workshops engaged nearly 500 students from 64 schools, focusing on subject mastery, examination techniques, and mental readiness to support their transition into higher education.

At the same time, Yayasan Selangor places strong emphasis on students' character development and emotional well-being. Spiritual programmes such as Restu Ilmu and Solat Hajat, organised for SPM candidates across Yayasan Selangor hostels, go beyond symbolic activities by providing support to strengthen students' inner confidence, mental resilience, and spiritual values in facing academic challenges. This approach reflects Yayasan Selangor's commitment to nurturing well-rounded individuals who are intellectually, emotionally, and spiritually balanced.

Talent empowerment efforts were further strengthened through the implementation of the Bitara Programme, which focuses on grooming talented students. This year, three outstanding students were awarded full sponsorships to pursue their studies at Kolej Yayasan Saad, Melaka, covering tuition fees, accommodation, and living expenses. This achievement highlights the effectiveness of Yayasan Selangor's student selection and mentoring approach, while reaffirming the importance of investing in quality education to nurture future leaders. The achievements of Yayasan Selangor alumni who have excelled academically serve as a testament to the long-term impact of these efforts.

Overall, all initiatives implemented throughout the year were guided by a shared objective: developing human capital that is competitive, knowledgeable, and grounded in strong values. Yayasan Selangor's motto, continues to serve as the guiding principle in the planning and implementation of every programme. Every investment in education creates lasting value, not only for individuals but also for the advancement of the state and the well-being of the community.

Strategic Partnerships and Professional Development

In line with our vision, "Pendidikan Unggul: Mengupaya Insan, Merealisasi Wawasan" Yayasan Selangor recognises that the global employment landscape continues to evolve rapidly. To ensure that Selangor's youth remain relevant and competitive, Yayasan Selangor has expanded its educational sponsorship initiatives beyond traditional academic pathways to include specialised professional and technical fields.
Our aim is to ensure that every youth in Selangor, regardless of their academic or technical background, has access to clear, sustainable, and meaningful pathways towards high-value career opportunities. Through strategic partnerships and targeted development programmes, Yayasan Selangor continues to strengthen opportunities for students to acquire relevant knowledge, skills, and professional qualifications that meet the needs of the future workforce.

These efforts reflect Yayasan Selangor's commitment to building capable human capital that is not only academically capable but also equipped with the technical expertise, professional skills, and values required to contribute effectively to the state's economic growth and future development.

One of the key achievements in 2025 was the establishment of a strategic partnership with INTEC Education College to support internationally recognised professional accounting programmes, particularly ACCA and ICAEW. This initiative creates opportunities for youth from diverse educational backgrounds, including SPM, STPM, Diploma, and Degree holders, to pursue pathways into professional careers.

Beyond technical skills development, this programme supports the aspirations of the 13th Malaysia Plan (RMK13) 2026–2030 in strengthening high-quality human capital development. By emphasising professional knowledge, skills, and integrity, the initiative contributes towards enhancing the competitiveness of Selangor's future workforce. As part of early talent development efforts, Yayasan Selangor introduced these professional pathways through engagement sessions with 26 Form 4 and Form 5 students at the Sabak Bernam Hostel to create awareness and encourage interest in professional careers.

At the same time, recognising the diverse needs of human capital development, Yayasan Selangor established a strategic partnership with the Ex-Servicemen Affairs Corporation (PERHEBAT). This collaboration focuses on three key areas: specialised welding training, student placement, and employment opportunities. Through this initiative, Yayasan Selangor continues to support skills development among non-academic youth, children from B40 families, and military veterans by equipping them with practical skills and opportunities for sustainable careers.

This effort reflects Yayasan Selangor's broader commitment to inclusive human capital development and supports Selangor's aspiration to become a leading hub for skills, education, and workforce development.

Yayasan Selangor's commitment to professional development extends beyond educational programmes. Throughout the year, we continued to strengthen a wider network of strategic collaborations to support knowledge sharing, institutional development, and youth empowerment. Benchmarking visits from Yayasan Sarawak and Yayasan Islam Negeri Kedah provided valuable opportunities to exchange best practices in student management and financial sustainability. Our engagement with state higher education institutions, particularly Universiti Islam Selangor, was further strengthened through dialogue sessions exploring potential collaborations in entrepreneurship and holistic youth development.

In addition, Yayasan Selangor's involvement in the HRD Corp Skills2Sector programme has strengthened the alignment between skills training initiatives and current industry requirements. This ensures that students and trainees are equipped with relevant skills and better prepared to pursue suitable career opportunities.

These partnerships reflect Yayasan Selangor's continued evolution from providing educational assistance towards developing a more comprehensive approach to human potential development. Through initiatives ranging from professional accounting education to technical skills training such as welding, our focus remains on equipping Selangor's youth with the knowledge, skills, and values needed to succeed in the future workforce.

I would like to express my sincere appreciation to our strategic partners at INTEC, PERHEBAT, and all state stakeholders who continue to support this shared vision. Together, we remain committed to creating meaningful opportunities and contributing towards the sustainable development of Selangor's future generations.

Asset Fortification and Economic Sustainability

"To ensure the uninterrupted continuity of Yayasan Selangor's social mission, 2025 marked a crucial phase in our efforts to strengthen the organization's economic sustainability. Under my leadership, Yayasan Selangor implemented a new, more strategic

approach toward building a sustainable and self-reliant operational model, aligned with current needs and future demands.

Through the implementation of the Asset Enhancement Initiative (AEI), Yayasan Selangor continues to focus on developing sustainable revenue streams to support its core educational programmes. This approach plays an important role in strengthening Yayasan Selangor's financial sustainability, enabling continuous investment in human capital development initiatives that create meaningful and lasting impact.

One of the key initiatives undertaken is the redevelopment of Yayasan Selangor's 12-storey building, strategically located at the intersection of Jalan Bukit Bintang and Jalan Sultan Ismail. The property is being transformed into Sinma Redland Mall, a modern commercial development aimed at enhancing the value of Yayasan Selangor's asset while contributing to economic activity within the surrounding area. The first phase of the project is expected to commence operations in December 2025, with full completion targeted for early 2027, in line with Visit Malaysia Year 2026 and the anticipated growth in visitor activities.

The development is supported through strategic partnerships with Redland USJ Summit Properties Sdn. Bhd. and S&M Shopping Arcade Sdn. Bhd. through the signing of a Memorandum of Understanding (MOU). This collaboration provides a structured approach to ensure the project progresses sustainably and achieves its commercial objectives. Beyond its commercial value, the development serves as a long-term revenue source to support and strengthen Yayasan Selangor's educational programmes. At the same time, Yayasan Selangor continues to expand its involvement in the development of Carey Island (Pulau Carey), a strategic initiative with potential to support Selangor's future economic growth. This involvement was strengthened through collaboration supporting the State Government's vision to develop a smart, sustainable, and competitive economic hub.

The development of Carey Island (Pulau Carey) includes the establishment of an Edu-Technology Park focused on technology and innovation-driven education, alongside a Food Security Hub supported by advanced facilities such as cold chain systems, raw material storage, and agro-logistics infrastructure. This initiative not only contributes towards strengthening the national food security agenda but also creates opportunities for skills development, technological advancement, and future employment opportunities.

Overall, Yayasan Selangor's involvement in these strategic developments reflects our continued commitment to balancing economic growth with social responsibility. The sustainable returns generated from these strategic assets will strengthen our educational programmes, expand support for students, particularly those from low income families, and ensure that more children in Selangor have access to quality educational opportunities. Since its establishment on 5 November 1970, Yayasan Selangor has remained steadfast in its commitment to developing high-quality human capital and contributing towards a more sustainable, inclusive, and progressive future for Selangor.

Corporate Social Responsibility and Community Care

As we continue our journey in 2025, which also marks the 55th anniversary of Yayasan Selangor's establishment, I am grateful for the opportunity to share the organisation's achievements in Corporate Social Responsibility (CSR). Since assuming the role of Chief Executive Officer on 3 March 2025, my commitment has been to strengthen Yayasan Selangor's position not only as a provider of educational support, but also as an institution that remains caring, responsive, and connected to the community.

All CSR initiatives implemented throughout the year are guided by Yayasan Selangor's motto, "Pendidikan Unggul: Mengupaya Insan, Merealisasi Wawasan" reflecting our continued commitment to developing knowledgeable individuals while contributing towards greater social well-being.

One of the most meaningful moments in our CSR efforts this year was Yayasan Selangor's swift response following the gas pipeline fire

incident in Putra Heights. As the implementing agency under the Selangor State Standing Committee for Education, Yayasan Selangor acted promptly to ensure that the welfare and educational continuity of affected students and their families were supported during this challenging period.

Cash aid of RM500 was provided to 265 primary and secondary school students, while higher education students received book vouchers worth RM200. In addition, tablets and laptops were provided to support continued access to learning and minimise disruption to their education. As a gesture of solidarity and community support, Yayasan Selangor also contributed RM10,000 to the Putra Heights Relief Fund (Tabung Prihatin Putra Heights) to assist affected families and the wider community.

Yayasan Selangor's commitment to community care was further reflected during the holy month of Ramadan through the Santun Kasih Ramadan dan Aidilfitri Programme. Essential food supplies and financial assistance were provided to 20 selected families, including asnaf recipients, low-income households, and former Yayasan Selangor staff members. These outreach visits and aid distributions were carried out across Puchong, Klang, Kuala Lumpur, Sekinchan, and Sabak Bernam, with the aim of supporting families in celebrating Aidilfitri with greater comfort, dignity, and peace of mind.

The Iftar Madani and Khatam al-Quran Programme held at the Yayasan Selangor Hostel brought together 350 students and staff members in a spirit of unity and togetherness. The occasion also included contributions to orphans, as well as local imams and bilals, as a gesture of appreciation and community spirit. In conjunction with Hari Raya Aidiladha 1446H, Yayasan Selangor continued its community engagement efforts through participation in the Qurbani (Ibadah Korban) Programme alongside local communities. At Residensi Bestaria, Gombak, Yayasan Selangor contributed two cattle for the Qurbani programme and participated in gotong-royong activities together with YAB Dato' Seri Amirudin Shari, Menteri Besar Selangor. The Majlis Muafakat Aidiladha held at the Yayasan Selangor Hostel also involved staff members, students, and parents in the 'korban' process and distribution of meat to those in need. Beyond fulfilling a religious obligation, this programme strengthened values of empathy, unity, and community connection.

Closing

1970

Yayasan Selangor was established on 5 November 1970 and was officially incorporated under the Companies Act 1965 as a company limited by guarantee. The establishment of Yayasan Selangor was inspired by the vision of the late Dato' Seri Harun Idris, the 8th Menteri Besar Selangor, who also served as the founding Chairman of Yayasan Selangor.

1971

The official opening and first student intake at Asrama Dr. Latiff, Jalan Gurney, Kuala Lumpur, took place on 27 May 1971. The hostel provided accommodation for male students attending Victoria Institution, St. John's Institution, and Methodist Boys' School, Kuala Lumpur.

1975

The official opening and first intake of students at Asrama Dr. Latiff, located on Jalan Gurney, Kuala Lumpur, took place on 27 May 1971. The hostel provided accommodation for male students from Victoria Institution, St. John's Institution, and Methodist Boys' School, Kuala Lumpur.

1984

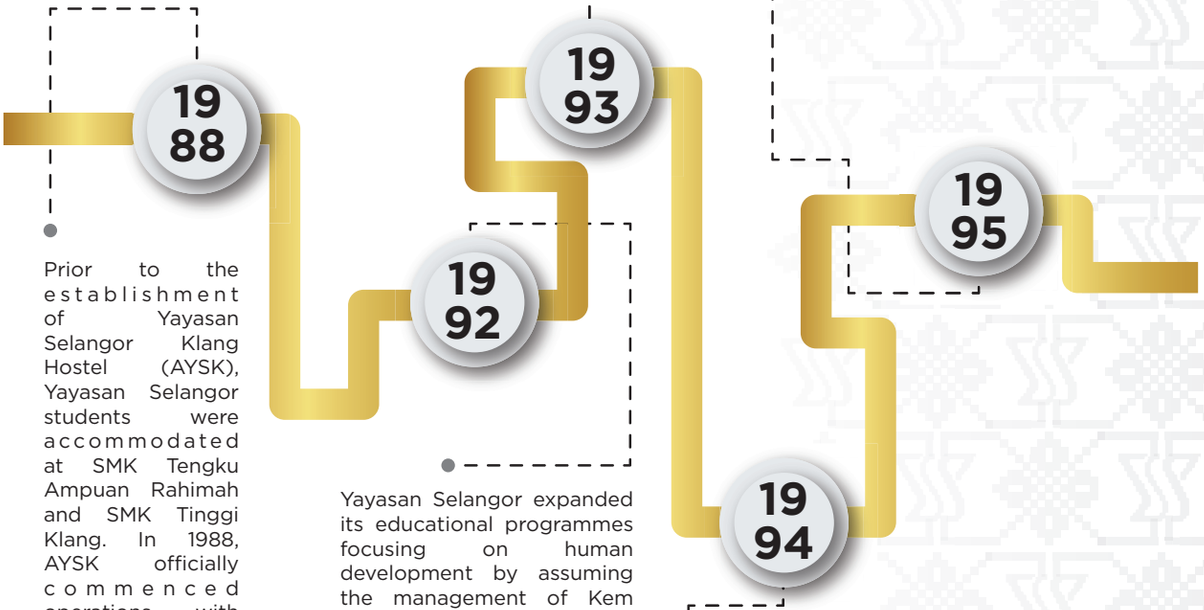

In 1984, Yayasan Selangor expanded its educational support by providing financial assistance to sponsored students pursuing higher education at public higher education institutions (IPTAs). In addition to providing food subsidies through the MOE–Yayasan Selangor Special Education Scheme Programme and the Federal Minor Scholarship (BKP), Yayasan Selangor also introduced a study loan scheme to support students pursuing studies locally and overseas.

1986

Initiated in 1986, the High Performance Rural School (HIPERS) Programme was implemented across ten primary schools in Selangor. The programme aimed to improve the academic performance of rural students in the Primary School Assessment Test (UPSR). It successfully enhanced student achievement and school performance, contributing towards the advancement of educational outcomes among rural communities in the state.

Yayasan Selangor expanded its educational vision by establishing Kolej INPENS to produce a skilled and high-technology workforce. Now operating in Kuala Selangor, Kolej INPENS serves as a skills training institution offering programs aligned with the advancements of Industrial Revolution 4.0 (IR4.0).

In the same year, Yayasan Selangor expanded its district hostel student intake by placing students at Sekolah Menengah Kebangsaan Damansara Utama (SMKDU) through the Yayasan Selangor Special Education Scheme Programme (Rancangan Khas Pendidikan Yayasan Selangor).

Prior to the establishment of Yayasan Selangor Klang Hostel (AYSK), Yayasan Selangor students were accommodated at SMK Tengku Ampuan Rahimah and SMK Tinggi Klang. In 1988, AYSK officially commenced operations with the admission of its first cohort of Form One students, together with the relocation of students from the two schools. In the same year, sponsored students were also placed at four daily boarding schools across Selangor, namely SM Dato' Harun (Tanjong Karang), SM Telok Datok, SM Sultan Abdul Aziz Shah (Kajang), and SM Kuala Kubu Bharu.

Yayasan Selangor expanded its educational programmes focusing on human development by assuming the management of Kem Bina Semangat in Ampang Pecah, Kuala Kubu Bharu, from the Selangor State Government. Located 65 km from Kuala Lumpur, the camp is surrounded by lush green hills and situated near the Selangor River, making it a suitable location for various training activities.

The Yayasan Selangor Sabak Bernam Hostel was established in 1994 and officially inaugurated during the Yayasan Selangor Silver Jubilee Celebration in 1995. Initially, the hostel accommodated 100 male students studying at SMK Ungku Aziz and SMK Tunku Abdul Rahman within the Sabak Bernam district.

At AYSK, students are placed across five schools in Klang—Klang High School, La Salle Klang, Methodist Boys' School Klang, Methodist Girls' School Klang, and Convent Klang—with the aim of enhancing their English language proficiency. AYSK is equipped with two residential blocks for boys and girls, a dining hall, surau, multipurpose hall, science laboratories, preparation classrooms, and sports facilities. Transportation support is provided through dedicated bus and van services, as well as chartered buses. The hostel has a maximum capacity of 350 students.

The Skills Training Centre has contributed to the development of a skilled and competent workforce in the field of electrical competency nationwide. The institute offers full-time programmes, including the Single-Phase Electrical Wiring Course (PW2) and the Refrigeration and Air-Conditioning Technology Course, while the Three-Phase Electrical Wiring Course (PW4) is conducted on a part-time basis.

The PEKA 21 Program represents the transformation and enhancement of the previously established HIPERS Program. Introduced to further strengthen students' academic excellence, the program has expanded its reach to 50 schools across Selangor.

Yayasan Selangor played a significant role in advancing higher education in the state through the establishment of Universiti Industri Selangor. Now known as Universiti Selangor (UNISEL), the university serves as a higher education institution offering a diverse range of academic and skills-based programmes aligned with industry requirements and the state's economic development goals.

The Yayasan Selangor Special Educational Scheme expanded its student enrollment through the inclusion of JAIS Science & Technology Tahfiz Maahad. In addition to academic excellence, Yayasan Selangor remains committed to nurturing students' religious knowledge and values as part of its holistic education approach.

The Yayasan Selangor Special Educational Scheme (RKPYS) has become a signature initiative and hallmark of Yayasan Selangor. This year, Yayasan Selangor further expanded the programme through collaboration with six Government-Aided Religious Schools (SABK) under the RKPYS initiative.

2014

Reintroduced in 2014, this programme supports Year 6 and Form 5 students from 10 primary schools and 10 secondary schools across Selangor in improving their academic performance. The programme aims to provide rural and suburban students with opportunities to further their studies at selected schools and higher education institutions. With the support of the Selangor State Education Department (JPN Selangor), the number of participants continues to grow annually.

2017

The Free Online Tuition Programme is a pioneering initiative by the Selangor State Government aimed at enhancing educational standards across the state. Yayasan Selangor was appointed as a joint implementing agency alongside the State Government to deliver this initiative. Through the platform, students can access instructional videos and topic-based practice questions for each subject, strengthening their understanding and learning outcomes. Registered students can revisit lessons anytime and anywhere using smartphones or other digital devices.

2021

In conjunction with Yayasan Selangor's 50th anniversary celebration, the foundation established strategic partnerships with 18 public and private agencies to implement various educational programmes. This initiative aims to strengthen collaborative networks in enhancing educational accessibility and quality across Selangor. Through these partnerships, a range of joint programmes and initiatives will be carried out, providing greater benefits to students and local communities.

The Siswa #KitaSelangor Camp: InspireX Leadership is an initiative by Yayasan Selangor to nurture a generation of young leaders who are visionary, resilient, and equipped with strong leadership values. The programme serves as a comprehensive leadership development platform aimed at strengthening the identity, soft skills, and leadership capabilities of Selangor-born university students as future leaders.

Held from 3 to 5 November 2025 at the Malaysian Nationhood Academy (AKM) Tanjung Rhu Camp, Sepang, the programme brought together university students from various higher education institutions for an intensive leadership development experience. The programme focused on enhancing leadership skills, strategic thinking, integrity, and professionalism among participants.

Throughout the programme, participants were exposed to various leadership modules covering organisational leadership and management, protocol, communication skills, financial management, debate, public speaking, and idea presentation. These modules were designed to strengthen participants' confidence, leadership abilities, and capacity to manage organisations effectively while engaging professionally with others.

In addition to structured training sessions, the programme incorporated group activities, outdoor activities, and "Bicara Tokoh" (Leader Talk) sessions, providing participants with opportunities to gain practical experience, expand their perspectives, and enhance critical thinking through knowledge sharing with experienced figures. This interactive learning approach also encouraged teamwork, creativity, and effective leadership practices.

The Siswa #KitaSelangor Camp: InspireX Leadership reflects Yayasan Selangor's continued commitment to developing quality human capital by nurturing student leaders who are visionary, principled, and capable of contributing positively towards community, state, and national development. The initiative supports the aspiration of cultivating a progressive, resilient, and future-ready generation of leaders.

Transformation

AND QUALITY MANAGEMENT

Chapter 4

Driving Organisational Transformation Towards a Progressive, Digital and High-Performing State Education Institution

INTRODUCTION

The year 2025 marked a significant turning point in Yayasan Selangor's (YS) management landscape, with the implementation of various organisation-wide transformation initiatives to strengthen its role as a leading education agency in Selangor.

In line with the Selangor State Government's aspiration to strengthen human capital development and improve the state's education competitiveness, Yayasan Selangor began reform efforts that focused not only on education programme delivery, but also on governance, performance management, digital systems, human capital development, asset management and organisational work culture.

The transformation initiatives were guided by the principles of Good Governance, Digitalisation, Productivity, Accountability and Sustainability, with the aim of creating a more agile, transparent, efficient and impactful organisation in supporting education development in the state.

To ensure that the transformation agenda was implemented systematically and continuously, Yayasan Selangor carried out several key initiatives throughout 2025, including the Education Division Transformation Study, YS Productivity Drive 2025 and the strengthening of the MS ISO 9001:2015 Quality Management System as important tools to enhance organisational excellence.

Yayasan Selangor Education Division Transformation Programme 2025

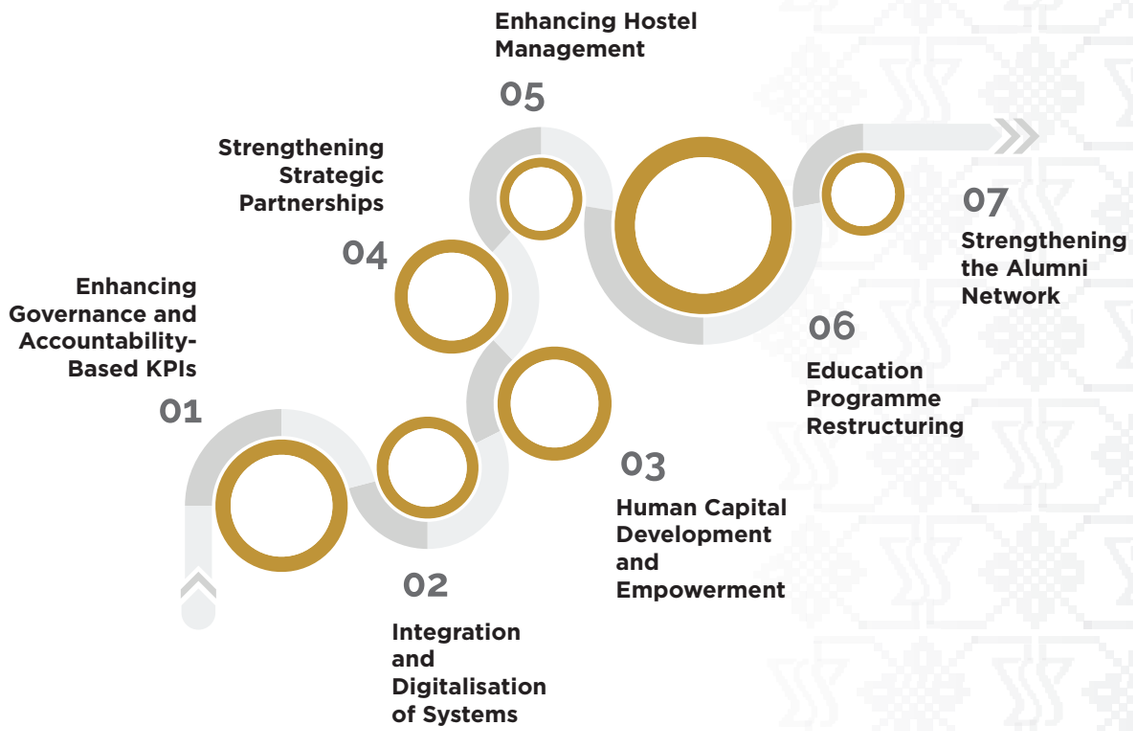

Transforming The State Education Ecosystem

The implementation of Phase 2 of the Yayasan Selangor Education Division Transformation Study, completed in December 2025, marked one of the key achievements in strengthening Yayasan Selangor's role as the leading education agency in Selangor, as outlined under the Selangor Budget 2023.

The study was developed through a comprehensive engagement process involving the management team, officers, state government agencies, education institutions and stakeholders to ensure that Yayasan Selangor's new direction remains relevant to future education challenges.

The Yayasan Selangor Strategic Plan 2025–2030, developed using the House of Excellence framework, serves as the main reference in driving organisation-wide transformation.

The transformation focuses on building an organisation that is more data-driven, digital, collaborative and impactful through seven key strategic areas:

These seven strategic areas were developed to ensure that Yayasan Selangor can operate as a state education institution that is more responsive to changes in the global education landscape, technological developments and future talent needs.

Throughout 2025, several initial initiatives were implemented, including improvements to the education management structure, strengthening programme monitoring systems, restructuring hostel management and developing strategic networks with higher education institutions, industries and government agencies.

The implementation of this transformation will continue in stages until 2030, based on strategic priorities and the organisation's capabilities.

YS Productivity Improvement Project 2025 (YS Productivity Drive 2025)

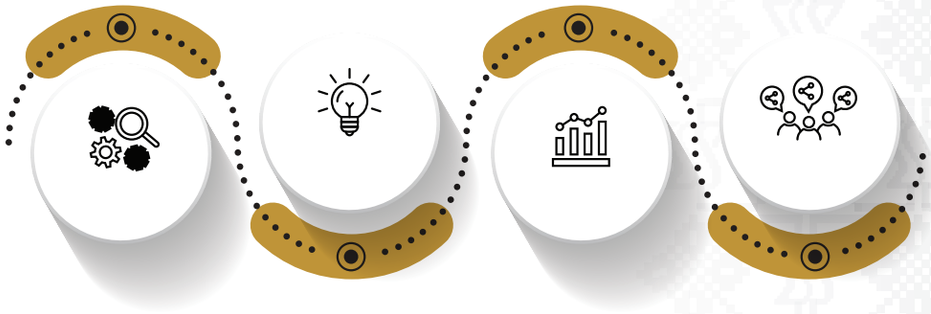

To improve organisational efficiency, Yayasan Selangor launched YS Productivity Drive 2025 in July 2025 as part of its organisational transformation agenda, focusing on building a high performance work culture.

Unlike regular improvement initiatives, this project was designed as a long term transformation plan to strengthen the organisation's management system through a more systematic, digital and performance based approach.

YS Productivity Drive 2025 was developed based on four key components:

Organisational Policies:
A review of existing policies and guidelines was carried out to ensure that each policy is clear, relevant and aligned with the organisation's current needs.

KPI System Strengthening:
The performance monitoring of departments and individuals was enhanced through a more objective, transparent and data based evaluation system.

SOP Improvement:
Standard Operating Procedures (SOP) were reviewed and reorganised to standardise work processes, reduce overlapping functions and improve service delivery efficiency.

Implementation of Balanced Scorecard (BSC):
The Balanced Scorecard framework was introduced to integrate financial performance, customer needs, internal processes and organisational development into a comprehensive strategic monitoring system.

The implementation of this project was fully supported by all Division Heads, who provided their commitment through implementation pledges to the Project Management Division as the secretariat.

As an organisation that adopts the Low Cost, High Impact principle, Yayasan Selangor utilised Microsoft Planner through Microsoft Teams to monitor projects and KPIs in real time.

This digital approach improved implementation transparency, strengthened reporting discipline, simplified task status monitoring and accelerated management decision making.

Although the overall impact of this initiative is expected to be measured over the next three to five years, the transformation foundation established in 2025 is expected to drive sustainable improvements in organisational productivity.

MS ISO 9001:2015 Quality Management System

Enhancing Quality Culture and Organisational Governance

Since obtaining ISO certification in 2000, Yayasan Selangor has continued to uphold its commitment to quality management practices through the implementation of the Quality Management System (QMS).

In 2020, Yayasan Selangor transitioned to the MS ISO 9001:2015 standard, which emphasises risk management, organisational leadership, continuous improvement and customer satisfaction.

Throughout 2025, various efforts were carried out to strengthen the system and embed quality practices as part of the organisation's work culture.

A key milestone was the MS ISO 9001:2015 Recertification Audit conducted by SIRIM QAS International Sdn. Bhd. from 4 to 5 December 2025, led by Dr. Roslina Bt. Sailan.

The audit recorded a significant achievement as Yayasan Selangor received no Non Conformance Reports (NCR) and only received several Opportunities for Improvement (OFI).

This achievement enabled the MS ISO 9001:2015 certification to be maintained until 6 December 2028, demonstrating the effectiveness of the organisation's governance system, risk management practices and continuous improvement culture.

In preparation for the audit, the Quality Management System Secretariat also organised the Internal Auditor Competency Enhancement Programme with AJA EQS Certification (M) Sdn. Bhd. from 13 to 14 August 2025.

The programme aimed to enhance internal auditors' understanding of ISO requirements, strengthen audit skills and ensure continuous improvement actions are carried out consistently across all divisions.

In addition, the Project Management Office (PMO) was appointed to lead the Quality Management System Committee to ensure the implementation of QMS is aligned with the organisation's transformation agenda and the culture of excellence being developed.

SUMMARY

Overall, 2025 was a significant year in the transformation journey of Yayasan Selangor, with various improvements successfully implemented to strengthen the organisation's management system, enhance productivity, strengthen governance and promote a quality culture at all levels.

The implementation of the Education Division Transformation Study, YS Productivity Drive 2025 and the successful continuation of MS ISO 9001:2015 certification demonstrate Yayasan Selangor's commitment to building a more progressive, competitive and performance driven organisation.

This transformation goes beyond improving work processes. It represents a change in organisational culture that emphasises innovation, integrity, accountability and service excellence as the foundation for the development of education in Selangor.

With the continuous implementation of the Yayasan Selangor Strategic Plan 2025 to 2030, Yayasan Selangor is confident in continuing its role as a leading, sustainable and relevant state education institution in developing Selangor's future generation who are knowledgeable, skilled, competitive and able to contribute to the development of the state and nation.

If, based on the work we have performed, we conclude that there is a material misstatement of the Trustees' Report, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Trustees for the Financial Statements

The trustees of the Foundation are responsible for the preparation of financial statements of the Group and of the Foundation that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 2016 in Malaysia. The trustees are also responsible for such internal control as the trustees determine is necessary to enable the preparation of financial statements of the Group and of the Foundation that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Foundation, the trustees are responsible for assessing the Foundation ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the trustees either intend to liquidate the Group and the Foundation or to cease operations, or have no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Foundation as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and the International Standards on Auditing will always detect a material misstatement when it exists.

Auditors' Responsibilities for the Audit of the Financial Statements ***(Cont'd)***

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Group and of the Foundation, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group and of the Foundation's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the trustees.

- Conclude on the appropriateness of the trustees' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group and Foundation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group and Foundation to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Foundation, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the trustees regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

1. Corporate Information

Yayasan Selangor ("The Foundation") is limited by guarantee, incorporated and domiciled in Malaysia.

The registered office and principal place of business is located at Menara Yayasan Selangor, No 18A, Jalan Persiaran Barat, 46000 Petaling Jaya, Selangor Darul Ehsan.

The Foundation is principally engaged in assisting and encouraging the education of Malaysians especially citizens of Selangor through funding generated from rental of building premises and joint venture projects. The principal activity of the subsidiary companies is described in Note 7 of financial statements.

The financial statements are expressed in Ringgit Malaysia.

The financial statements were authorized for issue by the Board of Trustees in accordance with a resolution of the Trustees on 30 JUN 2026

2. Basis of Preparation

(b) Basis of Measurement

The financial statements have been prepared on the historical cost except as disclose in the significant accounting policies.

(c) Use Of Estimates And Judgements

Estimates, assumptions concerning the future and judgements are made in the preparation of the financial statements. They affect the application of the Company's accounting policies and reported amounts of assets, liabilities, income and expenses, and disclosures made. Estimates and underlying assumptions are assessed on an on-going basis and are based on experience and relevant factors, including expectations of future events that are believed to be reasonable under the circumstances. The actual results may differ from the judgements, estimates and assumptions made by management, and will seldom equal the estimated results.

Information about significant estimates and assumptions that have most significant effect on recognition and measurement of assets, liabilities, income and expenses are discussed below.

Notes To The Financial Statements (Cont'd)

31 December 2025

2. Basis Of Preparation (Cont'd)

(c) Use Of Estimates And Judgements (Cont'd)

Critical Judgement and Estimation Uncertainty

Key assumptions concerning the future and accounting estimates at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below: -

Depreciation

The estimates for the residual values, useful lives and related depreciation charges for the plant and equipment are based on commercial factors which could change significantly as a result of technical innovations and competitors' actions in response to the market conditions.

The Foundation anticipates that the residual values of its plant and equipment will be insignificant. As a result, residual values are not being taken into consideration for the computation of the depreciable amount.

Changes in the expected level of usage and technological development could impact the economic useful lives and the residual values of these assets, therefore future depreciation charges could be revised.

Income taxes

There are certain transactions and computations for which the ultimate tax determination may be different from the initial estimate. The Company recognizes tax liabilities based on its understanding of the prevailing tax laws and estimates of whether such taxes will be due in the ordinary course of business. Where the final outcome of these matters is different from the amounts that were initially recognized, such difference will impact the income tax and deferred tax provisions in the period in which such determination is made.

Impairment of non- financial assets

When the recoverable amount of an asset is determined based on the estimate of the value-in-use of the cash-generating unit to which the asset is allocated, the management is required to make an estimate of the expected future cash flows from the cash-generating unit and also to apply a suitable discount rate in order to determine the present value of those cash flows.

Notes To The Financial Statements (Cont'd)

31 December 2025

2. Basis Of Preparation (Cont'd)

(c) Use Of Estimates And Judgements (Cont'd)

Critical Judgement and Estimation Uncertainty (Cont'd)

Impairment of receivables

The Foundation makes impairment of receivables based on an assessment of the recoverability of receivables. Impairment is applied to receivables where events or changes in circumstances indicate that the carrying amounts may not be recoverable. Management specifically analyses historical bad debts, customer creditworthiness, current economic trends and changes in customer payment terms when making a judgement to evaluate the adequacy of impairment of receivables. Where expectations differ from the original estimates, the difference would impact the carrying amount of receivables. Characteristics. If the expectation is different from the estimation, such difference will impact the carrying value of receivables.

Fair value estimates for certain financial assets and liabilities

The Foundation carries certain financial assets and liabilities at fair value, which requires extensive use of accounting estimates and judgement. While significant components of fair value measurement were determined using verifiable objective evidence, the amount of changes in fair value would differ if the Company uses different valuation methodologies. Any changes in fair value of these assets and liabilities would affect profit and / or equity.

(d) Functional and presentation currency

These financial statements are presented in Ringgit Malaysa ("RM"), which is the Foundation functional currency. All financial information is presented in RM and has been rounded to the nearest thousand, unless otherwise stated.

Notes To The Financial Statements (Cont'd)

31 December 2025

3. Significant Accounting Policies

(a) Basis of consolidation

The consolidated financial statements include the financial statements of the Foundation and all its subsidiaries. Subsidiaries are those companies in which the Group has a long-term equity interest and where it has power to exercise control over the financial and operating policies so as to obtain benefits therefrom.

Subsidiaries are consolidated using the acquisition method of accounting. Under the acquisition method of accounting, the results of subsidiaries acquired or disposed of during the year are included in the consolidated income statement from the effective date of acquisition or up to the effective date of disposal, as appropriate. The assets and liabilities of a subsidiary are measured at their fair values at the date of acquisition and these values are reflected in the consolidated balance sheet. The difference between the cost of an acquisition and the fair value of the Group's share of the net assets of the acquired subsidiary at the date of acquisition is included in the consolidated balance sheet as goodwill or negative goodwill arising on consolidation.

Intragroup transactions, balances and resulting unrealised gains are eliminated on consolidation and the consolidated financial statements reflect external transactions only. Unrealised losses are eliminated on consolidation unless costs cannot be recovered. The gain or loss on disposal of a subsidiary company is the difference between net disposal proceeds and the Group's share of its net assets together with any unamortised balance of goodwill and exchange differences which were not previously recognised in the consolidated income statement.

Minority interest is measured at the minorities' share of the post-acquisition fair values of the identifiable assets and liabilities of the acquire.

(b) Business Combination

Acquisition of subsidiaries under business combination are accounted for using the acquisition method. The consideration for each acquisition is measured at the aggregate of the fair values (at the date of exchanges) of assets given, liabilities, incurred or assumed and equity instruments issued by the Group in exchange for control of the acquire. Acquisition-related costs are generally recognised in profit or loss as incurred.

Where a business combination is achieved in stage, the Group's previously held interest in the acquired entity is remeasured to fair value at the acquisition date (i.e. the date the Group attains control) and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquire prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of.

(b) Business Combination (Cont'd)

Acquisition of subsidiaries under business combination are accounted for using the acquisition method. The consideration for each acquisition is measured at the aggregate of the fair values (at the date of exchange) of assets given, liabilities, incurred or assumed and equity instruments issued by the Group in exchange for control of the acquire. Acquisition-related costs are generally recognised in profit or loss as incurred.

Where a business combination is achieved in stages, the Group's previously held interest in the acquired entity is remeasured to fair value at the acquisition date (i.e. the date the Group attains control) and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquire prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of.

The acquiree's identifiable assets acquired, liabilities and contingent liabilities that meet the conditions for recognition under MFRS 3 (revised) are recognised at their fair value at the acquisition date, except that:

i) Deferred tax assets or liabilities and liabilities or assets to employee benefit arrangements are recognised and measured in accordance with MFRS 112 Income Taxes and MFRS 119 Employee Benefits respectively;

ii) Liabilities or equity instruments related to share-based payment transactions of the acquiree or the replacement by the Group of an acquiree's share-based payment transactions are measured in accordance with MFRS 2 share-based payment at the acquisition date; and

iii) Assets (or disposal groups) that are classified as held for sale in accordance with MFRS 5 Non-Current Assets Held for Sale and Discontinued Operations are measured in accordance with the Standard.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see below), or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed as at the acquisition date that, if known, would have affected the amounts recognised as at that date.

The measurement period is the period from the date of acquisition to the date the Group obtains complete information about facts and circumstances that existed as at the acquisition date and is subject to a maximum of one year.

(b) Business Combination (Cont'd)

In a business combination accounted for under the acquisition method, purchased goodwill is recognised as an asset as of the acquisition date, measured at the excess of (a) over (b) below.

a) The aggregate of:
   i) The consideration transferred (including any contingent consideration), which generally is measured at acquisition-date fair value;
   ii) The amount of any non-controlling interest in the acquiree, measured at acquisition-date fair value for all components of non-controlling interests or a choice of share of net asset value only for the component that relates to ordinary equity interest in the acquiree; and
   iii) In a business combination achieved in stages, the acquisition-date fair value of the Group's previously held equity interest in the acquiree.

b) The net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed (including contingent liabilities) measured in accordance with MFRS 3, which generally is at fair value.

Purchased goodwill is not amortised but is subject to impairment test annually or more frequently whenever is any indication of impairment.

(c) Investment In Subsidiary

Subsidiaries are entities controlled by the Group and the Foundation Control exists when the Group or the Foundation is exposed, or has rights, to variable returns from its involvement with the entities and has the ability to affect those returns through its power over the entities. In circumstances when the voting rights are not more than half or when voting rights are not the dominant determinant of control, the Group and the Foundation use judgements to assess whether it has the factor control, control by other arrangement, or by holding substantive potential voting rights.

Consolidation of a subsidiary begins when the Group or the Foundation obtains control over the subsidiary and ceases when control over the subsidiary is lost.

Investment in subsidiary is stated at cost in the Foundation's statement of financial position. Where an indication of impairment exists, the carrying amount of the subsidiaries is assessed and written down immediately to their recoverable amount. Upon disposal of investment in subsidiaries, the difference between the net disposal proceeds and its carrying amount is included in profit and loss.

When necessary, adjustments are made to the financial statements of the subsidiaries to bring their accounting policies into line with the Group's accounting policies.

(d) Property, Plant and Equipment

All property, plant and equipment are initially measured at cost. For a purchased asset, cost comprises purchase price plus all directly attributable costs incurred in bringing the asset to its present location and condition for management's intended use. For a self-constructed asset, cost comprises all direct and indirect costs of construction (including provision for restoration and cost of major inspection) but excludes external internal profits. For an exchange of non-monetary asset that has a commercial substance, cost is measured by reference to the fair value of the asset received. For an asset transferred from a customer or a grantor, cost is measured by reference to the fair value of the asset.

All property, plant and equipment are subsequently measured at cost less accumulated impairment losses.

Freehold land not depreciation but are subject to impairment test if there is any indication of impairment.

All other property, plant and equipment are depreciated by allocating the depreciable amount of a significant component or of an item over the remaining useful life. The depreciation methods used and the useful lives of the respective classes of property, plant and equipment are as follows:

	Method	Useful life (%)
Building	Straight-line	2 – 10
Freehold land	Straight-line	over 99 years
Furniture and fittings	Straight-line	10 – 25
Motor vehicles	Straight-line	20 – 25
Renovation	Straight-line	10 – 25
Lift and equipment	Straight-line	10

At the end of each reporting period, the residual values, useful lives and depreciation methods for the property, plant and equipment are reviewed for reasonableness. Any change in estimate of an item is adjusted prospectively over its remaining useful life, commencing in the current period.

Gain or loss arising from the disposal of an asset is determined as the difference between the net disposal proceeds and the carrying amount of the assets and is recognised in the statement of profit or loss and other comprehensive income.

(e) Provisions

The Foundation recognized a liability as a provision if the outflows required to settle the liability are uncertain in timing or amount.

A provision for warranty costs, restoration costs, restructuring costs, onerous contracts or lawsuit claims is recognized when the Foundation has a present legal or constructive obligation as a result of a past event, and of which the outflows of resources on settlement are probable and reliable estimate of the amount can be made. No provision is recognized if these conditions are not met.

Any reimbursement attributable to a recognized provision from a counter-party (such as an insurer) is not off-set against the provision but recognized separately as an asset when, and only when, the reimbursement is virtually certain.

A provision is measured at the best estimate of the expenditure required to settle the present obligation at the end of the reporting period. For a warranty provision, a probability-weighted expected outcome of the resources required to settle the obligation is applied taking into account the Company's experiences of similar transactions and supplemented with current facts and circumstances. For a restoration provision, where a single obligation is being measured, the Company uses the individual most likely outcome as the best estimate of the liability by reference to current prices that contractors would charge to undertake such obligations, and taking into account likely future events that may affect the amount required to settle an obligation. For an onerous contract, a provision is measured based on the amount by which costs to fulfil the contract exceed the benefits. For a lawsuit provision, a probability-weighted expected outcome is applied in the measurement, taking into account past court judgements made in similar cases and advice of legal experts.

A provision is measured at the present value of the expenditures expected to be required to settle the obligations using a discount rate that reflects the time value of money and the risk that the actual outcome might differ from the estimate made. The unwinding of the discount is recognized as an interest expense.

(f) Financial Instruments

(i) Initial Recognition and Measurement

The Company recognized a financial asset or a financial liability in the statement of financial position when, and only when, an entity in the Foundation becomes a party to the contractual provisions of the instrument.

On initial recognition, all financial assets and financial liabilities are measured at fair value, which is generally the transaction price, plus transaction costs if the financial asset or financial liability is not measured at fair value through profit or loss. For instruments measured at fair value through profit or loss, transaction costs are expenses to profit or loss when incurred.

(ii) Derecognition of Financial Instruments

For derecognition purposes, the Foundation first determines whether a financial asset or financial liability should be recognized in its entirely as a single item or recognized part-by-part of a single item or of a group of similar items.

(iii) Subsequent Measurement of Financial Assets

A financial asset, whether as a single item or as a part, is recognized when, and only when, the contractual rights to receive the cash flows from the financial asset expire, or when the Foundation transfers the contractual rights to receive cash flows of the financial asset, including circumstances when the Foundation acts only as a collecting agent of the transferee, and retains no significant risks and rewards of ownership of the financial asset or no continuing involvement in the control of the financial asset transferred.

A financial liability is recognized when, and only when, it is legally extinguished, which is either when the obligation specified in the contract is discharged or cancelled or expires. A substantial modification of the terms of an existing financial liability. For this purpose, the Company considers a modification as substantial if the present value of the revised cash flows of the modified terms discounted at the original effective interest rate differs by 10% or more when compared with the carrying amount of the original liability.

For the purpose of subsequent measurement, the Foundation classifies financial assets into two categories, namely: (i) financial assets at fair value through profit or loss; and (ii) financial assets at amortised cost.

(f) Financial Instruments (Cont'd)

(iii) Subsequent Measurement of Financial Assets (Cont'd)

After initial recognition, the Foundation measures investments in quoted preference shares, quoted ordinary shares and derivatives that are assets at their fair values by reference to the active market prices, if observable, or otherwise by a valuation technique, without any deduction for transaction costs it may incur on sale or other disposal.

Investments in debt instruments, whether quoted or unquoted, are subsequently measured at amortised cost using the effective interest method. Investments in unquoted equity instruments and whose fair value cannot be reliably measured are measured at cost.

Other than, financial assets measured at fair value through profit or loss, all other financial assets are subject to review for impairment in accordance with Note (3) f (vii).

(iv) Subsequent Measurement of Financial Liabilities

After initial recognition, the Company measures all financial liabilities at amortised cost using the effective interest method, except for derivatives instruments that are liabilities and financial guarantee contracts, which are measured at fair value.

(v) Fair Value Measurement of Financial Instruments

The fair value of a financial asset or a financial liability is determined by reference to the quoted market price in an active market, and in the absence of an observable market price, by a valuation technique using reasonable and supportable assumptions.

(vi) Recognition of Gains and Losses

Fair value changes of financial assets and financial liabilities classified as at fair value through profit or loss are recognized in profit or loss when they arise.
For financial assets and financial liabilities carried at amortised cost, a gain or loss is recognized in profit or loss only when the financial asset or financial liability is recognized or impaired, and through the recognized process of the instrument.

(f) Financial Instruments (Cont'd)

(vii) Impairment and Uncollectibility of Financial Assets

At the end of each reporting period, the Foundation examines whether there is any objective evidence that a financial asset or a group of financial assets is impaired. Evidences of trigger loss events include: (i) significant difficulty of the issuer or obligor; (ii) a breach of contract, such as a default or delinquency in interest or principal payments; (iii) granting exceptional concession to a customer; (iv) it is probable that a customer will enter bankruptcy or other financial recognized on; (v) the disappearance of an active market for that financial asset because of financial difficulties; or (vi) any observable market data indicating that there may be a measurable decrease in the estimated future cash flows from a group of financial assets.

For a non-current loan and receivable carried at amortised cost, the revised estimated cash flows are discounted at the original effective interest rate. Any impairment loss is recognized in profit or loss and a corresponding amount is recorded in a loss allowance account. Any subsequent reversal of impairment loss of the financial asset is reversed in profit or loss with a corresponding adjustment to the loss allowance account, subject to the limit that the reversal should not result in the revised carrying amount of the financial asset exceeding the amount that would have been determined had no impairment loss been recognized previously.

For short-term trade and other receivables, where the effect of discounting is immaterial, impairment loss is tested for each individually significant receivable wherever there is any indication of impairment. Individually significant receivables for which no impairment loss is recognized are grouped together with all other receivables by classes based on credit risk characteristics and aged according to their past due periods. A collective allowance is estimated for a class group based on the Foundation's experiences of loss ratio in each class, taking into consideration current market conditions.

For unquoted equity investment measured at cost less impairment, the impairment is the difference between the asset's carrying amount and the best estimate (which will necessarily be an approximation) of the amount (which might be zero) that the Foundation expects to receive for the asset if it were sold at the reporting date. The Foundation may estimate the recoverable amount using an adjusted net asset value approach.

(g) Tax Assets And Tax Liabilities

A current tax for current and prior periods, to the extent unpaid, is recognized as a current tax liability. If the amount already paid in respect of current and prior periods exceeds the amount due for those periods, the excess is recognized as a current tax asset. A current tax liability (asset) is measured at the amount the entity expects to pay (recover) using tax rates and laws that have been enacted or substantially enacted by the reporting date.

A deferred tax liability is recognized for all taxable temporary differences, except to the extent that the deferred tax liability arises from: (a) the initial recognition of goodwill; or (b) the initial recognition of an asset or liability in a transaction which is not a business combination and at the time of the transaction, affects neither accounting profit nor taxable profit (or tax loss). The exceptions for initial recognition differences include items of property, plant and equipment that do not qualify for capital allowances and acquired intangible assets that are not deductible for tax purposes.

A deferred tax asset is recognized for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be recognized unless the deferred tax asset arises from the initial recognition of an asset or liability in a transaction that is not a business combination and at the time of the transaction, affects neither accounting profit no tax taxable profit(or tax loss).The exceptions for the initial recognition differences include non-taxable government grants received and reinvestment allowances and investment tax allowances on qualifying property, plant and equipment.

A deferred tax asset is recognized for the carry-forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credit can be recognized.

Deferred taxes are measured using tax rates (and tax laws) that have been enacted or substantially enacted by the end of the reporting period. The measurement of deferred taxes reflects the tax consequences that would follow from the manner in which the Foundation expects, at the end of the reporting period, to recover or settle the carrying amount of its assets or liabilities. For an investment property measured at fair value, if the owner-entity in the Foundation does not have a business model to hold the property solely for rental income, and hence, the deferred tax liability on the fair value gain is measured based on the presumption that the property is recovered through sale at the end of the reporting period.

At the end of each reporting, the carrying amount of a deferred tax asset is reviewed, and is reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of a part or all of that deferred tax asset to be recognized. Any such reduction will be reversed to the extent that it becomes probable that sufficient taxable profit will be available.

(g) Tax Assets And Tax Liabilities (Cont'd)

A current or deferred tax is recognized as income or expense in profit or loss for the period, except to the extent that the tax arises form items recognized outside profit or loss. For an income or expense item recognized in other comprehensive income, the current or deferred tax expense or tax income is recognized on other comprehensive income. For items recognized directly in equity, the related tax effect is also recognized directly in equity. Deferred tax assets and liabilities arising from a business combination, including tax effects of any fair value adjustment, are recognized as part of the net assets acquired.

(h) Employee Benefits

The Company recognized a liability when an employee has provided service in exchange for employee benefits to be paid in the future and an expense when the Company consumes the economic benefits arising from service provided by an employee in exchange for employee benefits.

(i) Short-Term Employee Benefits

Wages and salaries are usually accrued and paid on a monthly basis and are recognized as an expense, unless they relate to cost of producing inventories or other assets.

Paid absences (annual leave, maternity leave, paternity leave, sick leave, etc.) are accrued in each period if they are accumulating paid absences that can be carried forward, or in the case of non-accumulating paid absences, recognized as and when the absence occur. Profit sharing and bonus payments are recognized when, and only when, the Company has a present legal or constructive obligation to make such payments as a result of past events and a reliable estimate of the obligation can be made.

(ii) Post-Employment Benefits- Defined Contribution Plans

The Company makes statutory contributions to approved funds and the contributions made are charged to profit or loss in the period to which they relate. When the contributions have been paid, the Company has no further payment obligations.

(h) Employee Benefits (Cont'd)

(iii) Termination Benefits

Termination benefits are payable whenever service of an employee is terminated before normal retirement date or whenever an employee accepts voluntary redundancy offered in exchange for benefits. The Company recognises a liability and expense for termination benefits at the earlier of the dates: (a) the Company can no longer withdraw the offer of those benefits; and (b) when the Company recognises costs for a restricting that involves the payment of termination benefits. The Company considers it can no longer withdraw the offer of those benefits when the Company is demonstrably committed to either: (i) terminate the employment of current employees according to a detailed formal plan, for which the Company has announced and has no realistic possibility of withdrawal; or (ii) to provide termination benefits as a result of an offer to encourage voluntary redundancy in a restructuring.

Termination benefits are initially measured at the estimated amount payable and are subsequently remeasured for changes in estimate, in accordance with the nature of the employee benefit. If the termination benefits are expected to be settled wholly before twelve months after the end of the annual reporting period in which the termination benefits are recognised, they are accounted for in the same manner as short-term employee benefits. If the termination benefits are not expected to be settled wholly before twelve-months after the end of the annual reporting period, they are accounted for in the same manner as other long-term employee benefits.

(i) Revenue Recognition and Measurement

Service

Revenue from services rendered is recognized in profit or loss proportion to the stage of completion of the transaction at the end of the reporting period. The stage of completion is assessed by reference to surveys of work performed.

Rental income

Rental income is accounted for on a straight-line basis over the lease term of an ongoing lease. The aggregate cost of incentives provided to the lessee is recognized as reduction of rental income over the lease term on a straight-line basis.

(j) Cash And Cash Equivalents

Cash and cash equivalents comprise cash in hand and bank balances which have an insignificant risk of changes in value.

(k) Government grants

Government grants are recognized in the financial statements when there is reasonable assurance that:

i. The Group would comply with the conditions attached to the grants; and
ii. The grants would be received

Government grants relating to costs are deferred and recognized as income in profit or loss on a straight-line basis over the periods necessary to match them with the related costs that they are intended to compensate.

Government grants related to assets are deducted from the carrying amount of the assets. (Government grants related to assets are presented in the statement of financial position as deferred revenue and recognized in profit or loss on a systematic basis over the useful life of the asset)

A party is related to an entity if: -

i. Directly, or indirectly through one or more intermediaries, the party: -
- Controls, is controlled by, or is under common control with, the entity (this includes parents, subsidiaries and fellow subsidiaries);
- Has an interest in the entity that gives it significant influence over the entity;
- Has joint control over the entity;
  - i. The party is an associate of the entity;
  - ii. The party is a joint venture in which the entity is venturer;

ii. The party is a member of the key management personnel of the entity or its parent;

iii. The party is a close member of the family of any individual referred to in (i) or (iv),

iv. The party is an entity that is controlled, jointly controlled or significantly influenced by, or for which significant voting power in such entity resides with, directly or indirectly, any individual referred to in (iv) or (v); or,

v. The party is a post-employment benefit plan for the benefit employees of the entity, or of any entity that is a related party of the entity.

Close members of the family of an individual are those family members who may be expected to influence, or be influenced by, that individual in their dealings with the entity.

(m) Investment Properties

The Group measures its investment property (other than building under construction) at fair value with gains and losses arising from changes in the fair values of investment properties recognised in profit or loss for the period in which they arise.

Building under construction included in investment properties are measured at cost as these assets are not yet available for use.

(n) Right-Of-Use Assets and Lease Liability

A lease is required to recognise a leased asset (representing the right-of-use (ROU) of the leased item for the lease term) and lease liability (representing obligation to pay rentals to the lessor.)

(i) Initial Measurement

Lease liabilities is recognised at the lease commencement date and initially measured at the present value of the lease payments that are not paid at the date. This liability includes both fixed payments (including in-substance fixed payments) and variable lease payments that depend on an index or rate. The discount rate used in calculating the present value of the unpaid lease payments is the interest rate implicit in the leases, if this is practicable to determine; if not, the Company's incremental borrowing rate is used. Lease term is the non-cancellable period of the lease plus periods covered by an option to extend or an option to terminate if the Foundation is reasonably certain to exercise the extension option or not exercise the termination option.

Right-of-use ("ROU") assets is initially recognised and measured at the same amount of the lease liability and lease payments made before or on commencement date. It also includes initial direct costs and any initial estimate of restoration costs.

(ii) Remeasurement

Lease liabilities are reassessed where there are changes to the lease payments based on the contractual terms in the lease agreements. Changes to lease payment may arise from:

a) Reassessment of lease term or purchase option;
b) Changes in amount payable under a residual value guarantee
c) Changes to variable lease payments dependent on an index/rate; or
d) Other variable lease payments.

(ii) Remeasurement (Cont'd)

Unless the ROU asset has already been reduced to zero, changes arise from (a) to (c) are adjusted to ROU asset. Change arises from (d) is recognised in profit or loss.

(iii) Subsequent Measurement

After initial measurement, lease liability is measured by accreting interest on the lease liability and reducing the carrying amount by payments made. The interest is accreted using effective interest rate method and changed to profit and loss account as finance costs, unless it is capitalised in a qualifying asset in accordance with MFRS 123 Borrowing Costs.

After initial measurement, the ROU asset recognised are measured at costs less accumulated depreciation and impairment on the same basis as owned assets.

Variable lease payments linked to sales or uses of the leased assets not included in the carrying amount of the ROU asset is recognised as an expense in the profit and loss account as and when incurred.

(iv) Recognition and Measurement Exemptions and Exclusion

The Foundation elects not to apply the above lessee accounting model on short term lease (i.e lease term of 12 months or less without purchase option) and lease of low-value assets. Lease payment of these leases is charged to profit and loss account as and when incurred.

Furthermore, after taking into consideration of simplicity and cost effectiveness, the Foundation may exclude other lease agreements from applying the above lessee accounting model provided the effect of these exclusions will remain immaterial with regards to its financial statements
